Darf Printing Information

The Individual Income Tax Annual Adjustment Declaration program allows the printing of the Darf to pay all installments, including those in arrears. The Darf will be printed plus interest equivalent to the reference rate of the Special Settlement and Custody System (Selic), for federal securities, accrued monthly, calculated from 06/01/2022 until the month prior to payment and 1% on the month of payment.

If payment of the installment is made after its due date, a late payment fine of 0.33% per day will apply, subject to the maximum limit of 20%.

To print the Darf, the taxpayer must use the **IRPF Declaration / Print / Darf** option and select the quota for printing.

In the case of quotas resulting from rectifying declarations in which there is a change in tax payable, to print the DARF, access the e-CAC Portal on the RFB website page, at <<http://gov.br/receitafederal>>. Then, click on "**Declarations and Statements**", select the "**My Income Tax (DIRPF Extract)**" service. In the list of Services found, click on "**Payment - Consult Debts, Issue DARF and Change Quotas**". After viewing the amount of quotas and the status of each one, click on the "**Print**" icon to issue the DARF for the desired month.
