

Business Funding & Cashflow Clarification

This clarification is provided further to the Funding & Cashflow Declaration submitted by **AMNM B.V.**.

At the present stage of operations, **AMNM B.V. does not maintain an active corporate bank account**, as the Company is in an early operational phase and operates on a **shareholder-funded basis**.

Operational expenses of the Company, including compliance, licensing, professional services, and third-party provider costs, are covered through **direct shareholder funding** made available by the Ultimate Beneficial Owner, **Ioannis Kaisarios**, as required.

The Company does **not rely on customer funds** to finance its operations and maintains segregation between any customer funds and operational funds at all times.

Once operational requirements necessitate the opening of a corporate bank account, the Company will ensure that all financial flows are conducted through such accounts in accordance with applicable regulatory requirements.

This clarification is provided in good faith and accurately reflects the current funding structure of the Company.

For and on behalf of AMNM B.V.

Name: IOANNIS KAISARIOS

Title: UBO
