Dear Sir/Madam

Subject: Amendment to Business Plan Regarding Platform Development

I hope this letter finds you well. We are writing to inform you of a significant update to our business plan regarding the development of our platform. Upon careful consideration and strategic evaluation, we have decided to revise our initial plan regarding platform development.

Contrary to what was previously stated in our business plan, we have opted to pivot our direction and utilize an existing certified platform that is currently operational and licensed in Curacao. This decision stems from a thorough analysis of market dynamics, technological advancements, and cost-effectiveness considerations.

The chosen platform aligns more closely with our objectives and offers several advantages, including but not limited to:

1. Immediate availability and readiness for deployment.
2. Compliance with regulatory standards and licensing requirements.
3. Proven track record of reliability and performance in the industry.
4. Reduced development time and associated costs.
5. Seamless integration with our existing infrastructure and workflows.

By leveraging this existing certified platform, we believe we can expedite our market entry, mitigate risks, and enhance overall operational efficiency. This strategic shift reflects our commitment to adaptability and resource optimization while maintaining our focus on delivering value to our stakeholders.

We understand the importance of transparency and accountability, and thus, we are providing this formal declaration to update and amend our business plan accordingly. We remain dedicated to achieving our strategic objectives and are confident that this decision will position us for long-term success.

Please feel free to reach out should you have any questions or require further clarification regarding this amendment.
