Re: Confirmation of Management Positions – MuchGaming B.V.

Dear Sir/Madam,

We hereby confirm that, as of the date of this letter, MuchGaming B.V. has not appointed separate individuals to the positions of Chief Executive Officer, Chief Technology Officer or Chief Financial Officer.

MuchGaming B.V. currently operates on a limited scale and maintains a lean organizational structure appropriate to the present size and complexity of its operations. At this stage, the establishment of three separate full-time executive positions is not considered operationally or commercially proportionate.

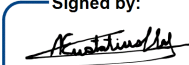

Notwithstanding the absence of formally appointed CEO, CTO and CFO positions, the corresponding management, operational, technological and financial responsibilities continue to be addressed through the company's existing governance structure and professional service arrangements.

Xecutive Corporate Management B.V., in its capacity as statutory director of MuchGaming B.V., provides management oversight and handles the company's financial administration, including accounting coordination, financial reporting and related financial matters.

The company will continue to assess its governance and staffing requirements as its business activities develop. Formal appointments to these executive positions will be considered when the scale, complexity and operational needs of the business justify such appointments.

We trust that the above provides the required clarification. Please do not hesitate to contact us should any additional information be required.

Yours faithfully,

Signed by:  E9C1A4A3F74E4ED...	Signed by:  8737E2B30CF043F...
