CASH GAMES

USD

I want to set a restriction for cash games. I understand that I will not be able to take part in cash games at stakes which are higher than the ones chosen by me for a time period set by me.

Select maximum
limit

Play at any stakes

Period

1 day

1 week

1 month

To set a restriction for tables, check the box above and choose the highest stake you are able to play at and the restriction period required, then click the "Save" button.

To change a restriction for tables, choose a new limit from the dropdown menu and click the "Save" button.

A restriction for tables extends only to real money cash games.

If you choose a smaller limit, the changes will take effect immediately. If you want to choose a bigger limit or remove it completely, you can do this after the current time period elapses.
