Professional Summary

Innovative and results-oriented **Chief Technical Officer (CTO)** with extensive experience in financial technology, software development, and project management. Over 10 years of expertise in leading cross-functional teams, designing scalable IT infrastructures, and delivering high-performance payment and digital solutions. Adept at aligning technology strategies with corporate objectives, managing budgets, and ensuring compliance with international standards and regulations.

Professional Experience

Chief Technical Officer (CTO) **KORD PAY | 2022 – 2025**

- Directed the company's technology strategy and IT operations, ensuring alignment with business goals and regulatory requirements in fintech.
- Oversaw the design, development, and implementation of innovative payment solutions, processing systems, and secure integrations with financial institutions.
- Led a team of over 40 engineers, developers, and analysts across multiple geographies, implementing Agile practices and DevOps culture.
- Established cybersecurity frameworks and disaster recovery procedures to safeguard critical infrastructure and customer data.
- Optimized system performance, reducing downtime by 25% and improving transaction speed and reliability.
- Acted as a key advisor to the Board on technology-related investments, risks, and innovation opportunities.

Project Manager **FOREST DEVGROUP LLC | 2019 – 2022**

- Managed complex web and mobile development projects for international clients, with budgets up to €2M.
- Coordinated distributed development teams and introduced Agile methodologies (Scrum, Kanban) to streamline delivery.
- Defined project roadmaps, milestones, and KPIs, significantly improving client satisfaction and efficiency.
- Ensured compliance with software quality standards and industry regulations.

Junior Project Manager **WEB KITCHEN LLC | 2015 – 2018**

- Supported senior managers in overseeing multiple software projects.

- Prepared project documentation, timelines, and reporting for internal and external stakeholders.
- Facilitated sprint planning, daily stand-ups, and QA review processes.
- Assisted in risk assessment and issue escalation to maintain smooth project execution.
