I. Definitions

- **Deposits.** Transactions in which a user transfers digital assets into their account on the micasino.com platform.
- **Financial Risk.** The potential for losses due to fluctuations in the value of digital assets, market instability, or operational errors.
- **Internal Transfers.** The movement of digital assets between internal accounts or systems within the company's operational infrastructure.
- **Operational Integrity.** The maintenance of secure, efficient, and reliable processes for managing digital asset transactions.
- **Regulatory Compliance.** Adherence to applicable laws, regulations, and industry standards governing the use of cryptocurrencies in online gaming operations.
- **Stablecoins.** A type of cryptocurrency is pegged to recognized fiat currencies, such as the U.S. dollar, which reduces exposure to the volatility typically associated with other forms of cryptocurrency.
- **Withdrawals.** Transactions in which a user transfers digital assets out of their account on the micasino.com platform.

II. Scope

This policy applies to all cryptocurrency-related activities carried out by micasino.com, including player deposits, withdrawals, and the company's internal transfer. In this way, the company establishes a comprehensive foundation for risk governance in the use of digital assets within an online gaming environment, including internal processes ensures that cryptocurrency management is fully integrated into the company's operational and regulatory framework, rather than handled as a fragmented practice.

This scope further underscores micasino.com's commitment to transparency, security, and adherence to international standards, particularly in Anti-Money Laundering (AML). By defining cryptocurrency risk management with clarity and comprehensiveness, micasino.com affirms its dedication to safeguarding institutional integrity, preserving customer trust, and maintaining resilience in a rapidly evolving technological and regulatory landscape.

III. Cryptocurrency Risk Policy

The Cryptocurrency Risk Policy of micasino.com establishes the principles and framework for managing risks associated with all cryptocurrency activities within the company. It applies comprehensively to deposits, withdrawals, and the company's internal transfers, ensuring that every transaction is conducted with proper oversight and robust security measures. The policy guides the identification, assessment, and mitigation of financial, operational, and compliance risks inherent in the use of cryptocurrencies.

This policy reflects micasino.com's commitment to maintaining a controlled, transparent, and secure environment for all digital asset operations. It underscores the importance of consistent monitoring, strict adherence to internal procedures, and compliance with applicable regulatory standards. By doing so, the policy reinforces the integrity of the company's financial operations and safeguards customer trust, establishing a structured and comprehensive approach to cryptocurrency risk management within the online gaming context.

IV. Permitted Digital Assets

The policy on permitted digital assets at micasino.com defines the types of cryptocurrencies allowed for use within the company's operations. To minimize financial risk and maintain a stable transactional environment, the company exclusively accepts stablecoins. This restriction demonstrates micasino.com's commitment to operational integrity and regulatory compliance within the online gaming industry. By permitting only stablecoins for deposits, withdrawals, and internal transfers.
