COMMERCIAL AND GROWTH STRATEGY

MARKETING PLAN

Over the last years, betting has been making towards the online world. That is why it is necessary for a successful online business to have a competent marketing strategy with the emphasis on internet marketing. Such instruments as SEO Services and Affiliate Marketing Services to help to attract the target audience.

Sky Interactive is intending to primarily focus on the LATAM market.

PROBLEM WORTH SOLVING

The significant marginality of the online betting industry shows us that there's room for a wider offer of this kind of service. There aren't significant regional operators that we could identify as leaders, but some of the biggest and well-known platforms and markets are European.

OUR SOLUTION

We will make use of IP and geolocation blocking for undesired or sanctioned jurisdictions such as the Dutch Caribbean, The Netherlands, United States, France, North Korea, Syria, Israel and Iran and more. Further, in the long run we plan to develop and implement additional security and restriction protocols.

GENERAL CONTROLS & DUTIES

Sky Interactive B.V. has separate departments for development, finance, casino management, customer support, payments & fraud, business intelligence and marketing, complementary set-up to our service providers. This is the first control in place. Individuals have clearly defined roles and responsibilities, including reporting lines within the company. As a result, each department has both substance and clarity to enable its goals and objectives.

Sky Interactive imposes restrictions and fully complies with the accepted legal age of 18+ being the players allowed to use online commercial gaming products.

The risk and compliance departments are responsible for monitoring all transactions to and from Sky Interactive and verifying the identity of all registered users. Sky Interactive's employees are fully committed to adopting a risk-based approach to anti-money laundering (AML) with effort focused where it is most needed to be able to process payment transactions between the company and its customers in a way free of money laundering issues. An AML manual outlining the policy and procedures in relation to risk assessment and management has been prepared for this purpose.

The developed internal systems and procedures applied by Sky Interactive are appropriate for remote gaming businesses. The Company appreciates that its money laundering and terrorist financing risk assessment is not a one-off exercise, and these are assessed regularly so that adopted approach is effective at any time.
