The Company performs periodic reconciliation between player account balances, payment records and the funds maintained for the settlement of player liabilities.

3. Bet amounts

The minimum and maximum bet amounts are defined for each game or gaming product available on the Company's platforms. Betting limits are established by the Company and/or its game providers and are embedded within the gaming software.

6. Outcome Determination

The outcome of each game offered through the Company's gaming platform is determined in accordance with the specific mechanics of the relevant game type and is fully independent of the player, the Company and any third party.

For RNG-based games, outcomes are generated by a certified Random Number Generator (RNG) embedded in the gaming software. The RNG ensures that results are random, unpredictable and not subject to manipulation.

For live dealer games, outcomes are determined by the physical conduct of the game in real time, performed by trained dealers and broadcast via live streaming. All game actions are conducted in accordance with the applicable game rules.

For virtual sports and other simulation-based products, outcomes are generated by certified software using predefined mathematical and statistical models combined with RNG-based mechanisms where applicable.

All game outcome generation systems are subject to testing, certification and ongoing monitoring to ensure fairness, integrity and compliance with applicable regulatory requirements.

7. Quality Assurance

The Company maintains a quality control framework designed to ensure the reliability, integrity, and fairness of all gaming products and related integrations offered under its platform.

When the Company offers games supplied by third-party providers, the Company ensures that such providers are subject to a risk-based onboarding and ongoing monitoring process designed to confirm the reliability, integrity, and fairness of the gaming content integrated into the Company's platform. The Company requires evidence that the relevant games, game components, and related systems have been tested and certified by an accredited or otherwise approved testing laboratory, where applicable.

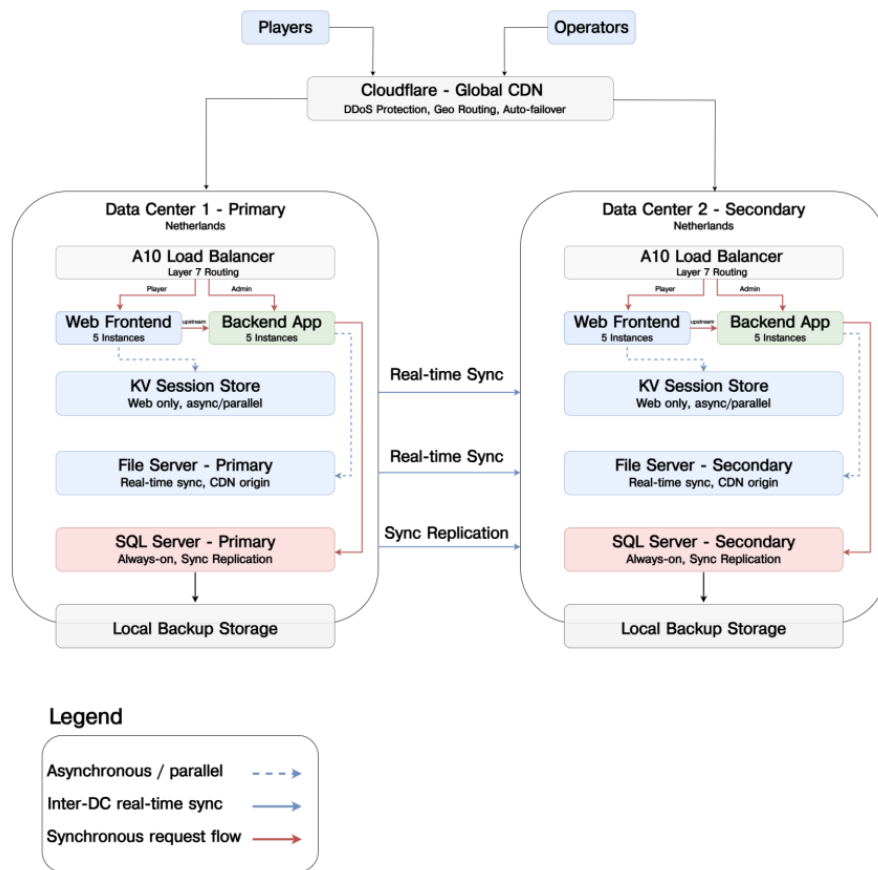

The Company maintains controls to monitor third-party providers on an ongoing basis, including tracking material software updates, new releases, changes to game parameters, and any incidents affecting game integrity or performance. Any significant change to a third-party game or its integration is subject to reassessment and, where necessary, renewed testing or certification before deployment.

Access to the platform is restricted to individuals aged 18 years or older. During the registration process, the Company applies automated age verification checks and requires players to provide accurate personal information. Where necessary, the Company may request additional identity documentation to verify the player's age and identity before allowing full access to gaming services. If the Company becomes aware that a player is under the legal gambling age, the account will be immediately suspended and closed.

During self-exclusion, the player account is suspended, and access to all gambling services is disabled. The Company blocks marketing communications to self-excluded players and implements system controls designed to prevent access to the platform for the duration of the exclusion period.

These measures are intended to protect players and reduce potential gambling harm.

The Company will take reasonable steps to prevent self-excluded players from creating new accounts.

The Company may restrict or close a player account where necessary to protect the player or comply with regulatory obligations. This may occur if:

- the player displays signs of harmful gambling behavior
- the player attempts to bypass responsible gaming controls
- fraudulent or criminal activity is suspected

All such actions are documented and may be reviewed by the Curacao Gaming Authority.

The Company conducts marketing activities in accordance with responsible gaming principles. Marketing communications:

At this stage, the Company will attempt to resolve the player's concern through standard customer support procedures.

Many issues are resolved at this stage without the need for a formal complaint.

Stage 2 - Formal Complaint

If the matter cannot be resolved through Customer Support, or if the player remains dissatisfied with the response received, the player may submit a formal Complaint.

A formal Complaint must be submitted through the Complaint Submission Form, which is accessible to registered players via their personal account on the Company's platform.

The completed Complaint Submission Form shall be submitted electronically to the Company.

The Complaint Submission Form shall include, at a minimum:

- i. the complainant's full name, address, and place of residence;

Upon completion of the internal complaints procedure, the Company will provide the player with a final written decision.

Stage 3 - Escalation to ADR

If the player remains dissatisfied with the outcome of the Complaint, the player may refer the Dispute to the designated Alternative Dispute Resolution (ADR) provider specified in Player Complaints Policy.

The player must submit the Dispute directly to the ADR provider.

Submitting a Complaint

Players may submit a complaint free of charge within six (6) months from the settlement of the bet or the incident giving rise to the complaint.

For peer-to-peer (P2P) games (e.g., poker) or ante post fixed odds betting, the six (6) month period commences upon the settlement of the bet or the conclusion of the relevant event, rather than the wager placement date.

For in-running betting, players are advised to submit Complaints promptly due to potential data retention limitations inherent to such products.

Complaint Handling and Timeline

Within one (1) week of receiving a formal Complaint, the Company will:

- confirm receipt of the Complaint in writing;
- explain the complaint handling procedure;
- provide an expected timeline for resolution.

The Company will assess and respond to Complaints within four (4) weeks.

If necessary, due to the complexity of the Complaint or the need to obtain additional information, this period may be extended once by an additional four (4) weeks. The player will be informed in writing if such extension is required.

The player will always receive a final determination of the Complaint in writing. Upon issuing the final decision, the Company will inform the player of their right to refer the Dispute to the designated ADR provider.

Complaints related to responsible gaming will be prioritized due to potential impacts on player wellbeing and will be addressed as soon as reasonably possible, typically within five (5) Business Days.

Access to ADR

If a Complaint remains unresolved, the player may refer the Dispute to the following CGA-certified ADR Provider:

CADRE <https://cadre.online/>

The Company agrees to participate in the ADR process in good faith and to comply with the outcome of the ADR decision, subject to applicable law and regulatory obligations.

The ADR decision shall not be binding on the player and shall not limit or restrict the player's right to initiate proceedings before a competent court.

The ADR process is expected to be completed within ninety (90) calendar days from the date the ADR Provider accepts the Dispute for review, unless the complexity of the case requires an extension.

Once the ADR Provider has issued its final determination, the same Dispute may not be submitted to another ADR entity.

If the player withdraws from the ADR process after it has commenced, the Dispute may not be resubmitted to ADR unless the ADR Provider determines that a procedural error occurred during the initial review.

Curacao Gaming Authority Escalation

The CGA will not resolve or make decisions on complaints regarding gambling-related transactions between players and Company.

Players may contact the CGA if they believe the Company has breached regulatory obligations.

Complaint information may be used by the CGA for supervisory and enforcement purposes.

17.10. Bonuses and Bonus money

17.10.1 Para-bets.com regularly offers you different bonuses and rewards that are credited to your Account. A bonus at Para-bets.com can mean free spins, cashback, free bet, extra money to play directly and the extra money you receive after making a deposit. A bonus usually follows with the wagering requirements that have to be met in order to withdraw the funds. In these cases, we recommend you to read the bonus rules before using.

17.10.2. Bonus rules

17.10.2.1. A bonus is awarded the bonus balance.

17.10.2.2. When the wagering requirements for the bonus are met the bonus amount is transferred to the main balance and may be withdrawn at any time.

17.10.2.5. Using bonuses to play games with accumulated benefits in the course of gameplay (Ex: Free Spins meters or other game features unlocked following some gameplay) and coming back to the game following the zeroing-out of the wagering requirements to trigger or unlock the feature and collect the accumulated benefits or related winnings - in this case all winnings and bonuses will be voided.

17.10.2.6. The funds won using bonuses cannot be withdrawn until all bonuses are wagered

17.10.2.7. Malfunction voids all pays and plays. Para-bets.com has a right to withdraw any winnings caused by malfunction up to the latest deposits.

17.10.2.8. Users should read and be aware of any applicable bonus policy and follow its terms in order to receive the bonus.

17.10.2.9. All bonuses have an expiry date. The standard expiry date for bonus money is 30 days. The expiry date can differ for specific bonuses. In such an event, the expiry date will be indicated in the relevant bonus' terms and conditions. Betting requirements need to have been fulfilled at the expiry date. We may cancel or debit bonus credit from the player Account after the expiry date.

17.10.2.10. The standard betting requirement for casino bonus money is 30 times the bonus amount received and for sportsbooks it is 15 times the bonus amount received. This may differ for specific promotions provided that it is specified accordingly in the relevant terms and conditions.

17.10.2.11. The wagering requirements of a bonus means the total amount of bets you must stake before the bonus and any accrued winnings are transferred into your cash balance and can be withdrawn. The wagering requirements for each bonus are set out in the specific terms for the bonus and will be expressed as a multiple of the bonus amount, or of the bonus plus the deposit amount. The wagering requirement for bonuses will be set out in the terms specific to that bonus. Not all bets will count

towards the wagering requirements. Bets on Blackjack, Roulettes, Arcade games (Heads or Better, Dice Twister, etc) Video poker games (Jacks or Better, Aces and Faces, etc), Baccarat, Casino Hold'em, 2 Ways Royal, Craps and Sic Bo games contribute 5% of actual wagering on these games towards your wagering requirements. 17.11. Wagering requirements

17.11.1. After getting the bonus it is transferred to the bonus balance up to the moment of reaching the wagering requirements.

17.11.2. The wagering requirements are a multiplier that represents the number of times you have to play a bonus before you are able to withdraw any winnings. After reaching the wagering requirements, a bonus or accrued winnings are transferred into main balance.

18. Sports Betting Rules

18.1. Para-bets.com accepts bets or/and wagers for sporting events that are presented on the Website. All such bets/wagers are subject to the rules applicable to each sport, e.g. Basketball, Tennis, E-Sports, etc.

18.2. You cannot make wagers exceeding your Account balance.

18.3. Once a bet has been placed and confirmed, a user cannot change or cancel a bet. It is therefore in the user's interest to ensure that all details of their bet are correct before placing a bet.

18.4. Before an event starts, Para-bets.com reserves, at its own discretion, the right to void or cancel part or whole of a bet even after its acceptance without providing any reason to the user. After the event start, Para-bets.com reserves, at its own discretion, the right to void or cancel part or whole of a bet, even after its acceptance if there is a valid reason for this, such as: - a mistake in the wording (palpable error) of the event, odds or starting time; - the user attempt to bypass Para-bets.com limits (potential payout) and risk management by placing multiple, identical or similar bets or opening multiple Accounts; - the user is getting an advantage of any public announcement or secret information he has access to that determines the outcome of the bet; - the user combines related bets; - the user is actively participating in the event, e.g. as a Player, Referee, Manager or has direct or indirect relationship with events participants; - Website suffers a technical error offering wrong odds or events; - any other valid reason duly communicated to the user upon request.

18.5. Para-bets.com reserves the right to cancel all bets of an event, if there is any change regarding the venue of the event.

18.6. Para-bets.com reserves the right to cancel all bets if there are radical changes in the circumstances of an event such as the length of playing time, the distance in a race speed or the number of periods, etc.

18.7. Winnings will be credited to the user Account following confirmation of the final result.

18.8. The outcome of a market is settled once this is determined. Para-bets.com takes the right to settle the game results in case a market is not determined earlier in the game. This rule works in terms of the normal duration of the match being concluded and if no any conditions are stated in the market description on the Website. For example: Example 1: Match-winner 1X2 market of an event is determined after the end of the normal duration (regular time) of the event. Football (Soccer) 1x2 Match Winner is determined after the 90 min, including any extra minutes called by the referee of the match as "normal duration". When the game is played in Overtime (the regular time cannot determine the winner), all markets state that this is a subject to pay "include overtime" after completion of the game. If there are any penalty kicks (or other decisive moments) they're not taken into consideration, unless another stated in the market. If the beginning of the game is delayed for whatever reasons, the event can be kept open and all bets can remain open 48 hours from the official start time. Nevertheless, Para-bets.com reserves the right to void such bets on its direction and refund the Users' stakes back. All bets can remain open and be calculated due to the game results by the decision of Para-bets.com when the organizer continues the abandoned event within 48 hours after starting time. In case the abandoned event does not continue with the decision of the organizer within 48 hours after its starting, Para-bets.com will settle all determined markets that were completed on the pitch. In addition, Para-bets.com will cancel another and refund the stakes to players. There are exceptions to the general rule: The 48 hours rule is not supported in the Tennis games. All bets are available until the referee or official representative determines the winner. Nevertheless, there are cases in which a player retires. In this situation, all markets that are determined on the court are settled accordingly and all the rest declared void and stakes returned to players. If there are any doubts about the retirement of a player before the last point is concluded, the market of the match winner is cancelled. Nevertheless, all markets that relate to the specific sets or games that are determined, are settled accordingly. Baseball games. The 48 hours rule is supported. When two teams are playing 2 games in a row they are considered as Game 1 and Game 2 and will be settled as chronologically played with all bets valid. For the avoidance of doubt, if Team A plays Team B twice, the result of Game 1 will count for bets offered on Game 1 as originally scheduled and the result of Game 2 will count for bets offered on Game 2, as originally scheduled. The 48 hours rule is valid. (e.g. if a football match is abandoned in the second half, the markets of the first half will be settled normally). (e.g. in the example above, the markets of the second match have not decided) will be void and stakes will be refunded to customers.

18.9. Explanation of specific Betting Types If there is at least one Scorer when the match is abandoned, all bets made on the first Goalscorer will be applied and on the last will be canceled. A player will be determined as a winner according to Goalscorer market at any time, and other players' bets are void. Head 2 Head Bets These bets mean the prediction about taking the higher position, getting more points or results between two players. Head 2 Head bets will work if both players will do the best in the event. If two players get the same result or play out a draw, all bets will be void. Outright Bets These bets mean the prediction about taking the higher position, getting more points or results among the players (3+). Outright bets will work if all participants will actively take part in the event. If there are participants that do not take part in the event, all odds that were placed on other participants will be amended and settled with

a reduction in the odds. The reduction includes the same margin applied to the missing participants. If two or more participants take the same result (play in a draw), the applicable odds will be equal to the accepted odds divided by the number of tie participants (e.g. with equal odds 2.70 and three tie participants the final odds will be: $2.70 / 3 = 0.90$), unless the official representative chooses only one winner with an additional statistic criterion (e.g. assists). Booking markets These are yellow and red cards. The yellow one counts as one card and the red - two. If a player gets two yellow cards in a row that are changed into a red card, this counts as three cards. In general, a player cannot receive more than three cards. A settlement will be based on all available card data that will appear during the normal event's playing time. The cards are shown after the final whilst won't be considered. The cards of a player who did not take part in the game (players that have already been replaced, coaches, players on the bench who have not taken part in the game) will not be considered. Booking markets with points In general, a player cannot get over 35 points during the game. A yellow card brings 10 points, the red one is counted as 25 points, and the second yellow-red card– 25. The second yellow card for a player who leads to a red card is not counted. Corners The corners are considered for the relevant market settlement only if they have been taken. If the corner is given but not taken, it will not be counted. Intervals The period from 00:01 until the completion of the minute indicated as the end minute is stated as the first interval. To exclude doubts, the interval 1-15 min is considered the period from 00:01 to 15:00 and the interval 30-45 min is considered the period from 30:01 until the end of the First Half accordingly. The interval 75-90 min is considered the period from 75:01 to the end of Full Time. The referee on its direction considered the last time interval from the minute indicated until the end of the period.

18.10. Bets by order and from bookmakers as well as betting agents are not permitted. Bets on events in which the bettor is participating ("participating" in this sense relates to those persons involved as a sportsperson, athlete, as an owner, trainer or functionary of a participating club) or those which are commissioned by any person participating, are not permitted. In addition, bets on league, cup or other events in which the respective club/ organization is participating may not be placed or commissioned by those persons considered to be participating in the respective event. In the case of violation of these regulations, Para-bets.com reserves the right to refuse payment of any winnings and already invested stakes as well as to cancel any bets. Para-bets.com takes no responsibility for knowing if the user is a member of one of the mentioned groups. This means that - Para-bets.com is entitled to undertake any necessary measures at any time after the user has become known as being a member of one of the mentioned groups.

18.11. Live scoreboard details added on Para-bets.com are for information purposes and are not a basis for settlement. All persons should ensure scoreboard details are correct before placing their bets.

Football (Soccer) 1x2 Match Winner is determined after the 90 min, including any extra minutes called by the referee of the match as "normal duration". When the game is played in Overtime (the regular time cannot determine the winner), all markets state that this is a subject to pay "include overtime" after completion of the game. If there are any penalty kicks (or other decisive moments) they're not taken into consideration, unless another stated in the market. If the beginning of the game is delayed for whatever reasons, the event can be kept open and all bets can remain open 48 hours from the official start time. Nevertheless, Khan-bet.com reserves the right to void such bets on its direction and refund the Users' stakes back. All bets can remain open and be calculated due to the game results by the decision of Khan-bet.com when the organizer continues the abandoned event within 48 hours after starting time. In case the abandoned event does not continue with the decision of the organizer within 48 hours after its starting, Khan-bet.com will settle all determined markets that were completed on the pitch. All bets are available until the referee or official representative determines the winner. Nevertheless, there are cases in which a player retires. In this situation, all markets that are determined on the court are settled accordingly and all the rest declared void and stakes returned to players. If there are any doubts about the retirement of a player before the last point is concluded, the market of the match winner is cancelled. Nevertheless, all markets that relate to the specific sets or games that are determined, are settled accordingly. Baseball games. The 48 hours rule is supported. When two teams are playing 2 games in a row they are considered as Game 1 and Game 2 and will be settled as chronologically played with all bets valid. For the avoidance of doubt, if Team A plays Team B twice, the result of Game 1 will count for bets offered on Game 1 as originally scheduled and the result of Game 2 will count for bets offered on Game 2, as originally scheduled. The 48 hours rule is valid. (e.g. if a football match is abandoned in the second half, the markets of the first half will be settled normally). (e.g. in the example above, the markets of the second match have not decided) will be void and stakes will be refunded to customers.

18.9. Explanation of specific Betting Types If there is at least one Scorer when the match is abandoned, all bets made on the first Goalscorer will be applied and on the last will be canceled. A player will be determined as a winner according to Goalscorer market at any time, and other players' bets are void. Head 2 Head Bets These bets mean the prediction about taking the higher position, getting more points or results between two players. Head 2 Head bets will work if both players will do the best in the event. If two players get the same result or play out a draw, all bets will be void. Outright Bets These bets mean the prediction about taking the higher position, getting more points or results among the players (3+). Outright bets will work if all participants will actively take part in the event. If there are participants that do not take part in the event, all odds that were placed on other participants will be amended and settled with a reduction in the odds. The reduction includes the same margin applied to the missing participants. If two or more participants take the same result (play in a draw), the applicable odds will be equal to the accepted odds divided by the number of tie participants (e.g. with equal odds 2.70 and three tie participants the final odds will be: $2.70 / 3 = 0.90$), unless the official representative chooses only one winner with an additional statistic criterion (e.g. assists). Booking markets These are yellow and red cards. The yellow one counts as one card and the red - two. If a player gets two yellow cards in a row that are changed into a red card, this counts as three cards. In general, a player cannot receive more than three cards. A settlement will be based on all available card data that will appear during the normal event's playing time. The cards are shown after the final whilst won't be considered. The cards of a player who did not take part in the game (players that have already been replaced, coaches, players on the bench who have not taken part in the game) will not be considered. Booking markets with points In general, a player cannot get over 35 points during the game. A yellow card brings 10 points, the red one is counted as 25 points, and the second yellow-red card– 25. The second yellow card for a player who leads to a red card is not counted. Corners The corners are considered for the relevant market settlement only if they have been taken. If the corner is given but not taken, it will not be counted. Intervals The period from 00:01 until the completion of the minute indicated as the end minute is stated as the first interval. To exclude doubts, the interval 1-15 min is considered the period from 00:01 to 15:00 and the interval 30-45 min is considered the period from 30:01 until the end of the First Half accordingly. The interval 75-90 min is considered the period from 75:01 to the end of Full Time. The referee on its direction considered the last time interval from the minute indicated until the end of the period.
