

Corporate Financial Statements, July 2023 – June 2024

Please bear in mind that despite Prism Sentinel being in operations since 2018, it still has not attempted to fully monetize it's product and is still in a “soft launch” phase. It intends to ramp up operations soon enough as detailed in the business plans document. And while the MintDice product is in a soft launch status, the BetSushi product has not launched at all, and so there is no product or financial statement for that division as of yet.

That being said, here is the aggregate total of the past year from June 2023 – July 2024:
