Product Tested: Crazy777

Evaluation Period: 22 February 2021 to 01 November 2021

File Number: MO-120-TDG-21-01

Testing Result: Subject to the Conditions of Evaluation listed in this report:
Recommended for Approval

Software Product Details

GLI tested the following game during the TaDa Gaming Ltd (hereafter, TDG) game evaluation:

- Crazy777

A description of the submitted game is given below.

“Crazy777”

“Crazy777” is a 4 reel, 1-fixed line online video reel game that offers base game with bonus feature. The base game features a ‘Special Reel’ bonus feature in the 4th reel.

For version-control of TDG “Crazy777” game, GLI gathered Message Digest Five (MD5) checksums of the following software files:

File Name	MD5 Checksum
plate.go	EEAAC373A118C58350716D1F9FB46416
CrazySeven_linux	E7D2968D7FAECA8D8E5098CD58877C80

The game was tested in an environment consisting of the following components:

Client-Side Details	
Delivery Mechanism(s):	Desktop Web-based
Delivery Mechanism Type(s):	HTML5
Testing Details	
Platform(s) and Version(s) Tested With:	http://gli.jiligames.com/player/login
Browser(s) and Version(s) Tested With:	Google Chrome Version 88.0.4324.190
Operating System(s) with Version:	Windows 10 Pro (64-Bit)

Game Evaluation

GLI’s game Evaluation of TDG’s “Crazy777” game included (but was not necessarily limited to) the following elements to the extent necessary to evaluate the game for compliance with the requirements in the aforementioned Technical Standards:

- **Software Version Control**
 - Supervised Build and Install, and
 - Gathering of Checksums.
- **Game Payouts Evaluation**
 - Source Code Read (Game Payouts Only),
 - Artwork (Graphical and Auditory Interface) (Game Payouts Only),
 - Functionality (Game Payouts Only), and
 - Accounting, and
 - Game Mathematics (Percentage Return-to-Player (%RTP) Calculations).

GLI performed an independent calculation of the theoretical Percentage Return to Player (%RTP) values of the game and the results are shown in the table below.

Game Name	Supplier's Submitted %RTP *	GLI's Game %RTP	GLI's Method of Analysis
Crazy777	96.01%	96.01%	Analytical
	96.51%	96.51%	Analytical
	97.01%	97.01%	Analytical
	97.51%	97.51%	Analytical

Note*: TDG has communicated that they will display GLI's independently calculated %RTP values on their "Crazy777" game. It will be TDG's responsibility for correctly implementing the display of these %RTP values on their platform's game rules.

Conditions of Evaluation

GLI's compliance evaluation of the TDG "Crazy777" game is subject to the following limitations:

- GLI's compliance evaluation of TDG "Crazy777" game was related only to the technical scope of work elements discussed herein. This specifically excludes any other features or functions provided by the submission not related to these elements. Any sections of the aforementioned Technical Standards specific to the Random Number Generator (RNG), Platform or Financial Reporting were outside of the scope of this game evaluation.
- Although this game may be configured for multi-national languages, only the English language version was evaluated.
- All testing results are based on information and materials submitted by TDG to GLI throughout the duration of the project. There are inherent limitations to performing compliance testing within a laboratory environment, and within a finite time period. As a result of these limitations, anticipating all possible configurations, scenarios and events which could potentially occur in the live environment was not feasible.
- GLI generated the checksums of the software and source code files using the methods stated below:

Verify+ by Kobetron™ - Verification Procedure:

1. Open Verify+ by Kobetron™
2. Select the 'File' radio button
3. Click "Browse", specify the file you wish to signature and click the "Open" button
4. If a different seed is needed, click the 'Options', then 'General Options' and enter a new seed
5. If needed, other File options can be found by clicking 'Options' then 'File Options'
6. Click the "Verify" button
7. The current file being checked will be displayed in the window
8. The program will generate the aforementioned signatures and display the results

- GLI only tested the requirements related to "Crazy777" game. During the GLI evaluation, ISS did not provide any Platform or Back office for testing. Hence this game must be operated under jurisdiction approved platform/back office which can fulfil and provide all the jurisdiction requirements of platform/back office.

Subject to the limitations outlined in the **Conditions of Evaluation**, it is GLI's position that the evaluated elements of TDG "Crazy777" game comply with the requirements of the applicable Technical Standard. Accordingly, GLI recommends the approval of the TDG "Crazy777" game, for use within the jurisdiction of GLI-19: Interactive Gaming Systems, Version 3.0.

If you should have any questions regarding this information, please feel free to contact our office.

Sincerely,

Mr. Lawson Anand
Senior Technical Compliance Engineer
GLI Australia
