

Game Name :- SPACE KENO

GAMES RULES

Space Keno is a numbers-based game that allows you to choose between Classic and three risk modes - Low, Medium or High. Higher risk mode awards highest prizes.

Total numbers on the space board is 40 In each game round, 10 numbers will be drawn randomly

HOW TO PLAY:-

Set your bet for the next round by clicking on the BET button. Choose 1-10 numbers located on the space board or choose them randomly by clicking on the Random Pick button. You can set how many numbers you want to choose randomly by clicking + - buttons.

The pay-table located in the bottom area will indicate the prize amounts based on the total numbers chosen and active game mode.

To start the round, hit the PLAY button. 10 numbers will be drawn randomly.

Based on the amount of hits(matches) of your selected numbers and those drawn, you will win the amount according to the pay-table.

When the round is finished you can either hit the Play button to start a new round with the same configuration or you can choose a new pattern

To clear all the selected numbers, hit the DELETE button and then select the new number.

Based on the amount of hits(matches) of your selected numbers and those drawn, you will win the amount according to the pay-table.
