

Responsible Gambling Policy

Version 1.0

Date: 1st August 2025

At **Cura Casino B.V.**, we believe gambling should always be a source of entertainment. However, like many activities, when done excessively it can lead to problems. Gambling addiction may negatively affect important areas of life, including physical and mental health, work or school performance, finances, and personal relationships.

To keep gambling fun and safe, we encourage you to follow these key principles:

General Principles for Safer Play

1. Don't Think of Gambling as a Way to Make Money

Gambling is designed for entertainment, not income. Casinos—whether land-based or online—are structured to take in more money than they pay out. Over time, this means players are likely to lose more than they win. Believing you will be the exception fuels risky behavior.

2. Always Play with Money You Can Afford to Lose

Use only discretionary funds—the money you'd normally spend on leisure activities such as dining out or going to the movies. Never use money needed for essentials such as rent, bills, tuition, or groceries.

3. Set a Spending Limit

Before you begin playing, decide how much you're willing to lose. Once you've reached that amount, stop. If you happen to win, enjoy it, but don't rely on winning as part of your plan.

4. Set a Time Limit

Decide in advance how long you want to play. When your time is up, log out—even if you're winning or losing.

5. Never Chase Losses

Trying to win back lost money often leads to greater losses. If you hit your limit, walk away.

6. Avoid Gambling When Upset or Stressed

Strong emotions can impair judgment and increase the likelihood of poor decisions.

7. Keep a Healthy Balance

Gambling should be only one of many enjoyable activities in your life. Spend time with friends, enjoy hobbies, sports, and other interests to maintain a balanced lifestyle.
