

AzRa678 N.V.- Responsible Gaming Policy

1. Our Unwavering Commitment to Player Well-being

At AzRa678 N.V. (in further text: “The Company”) we believe that betting and gaming should be a source of entertainment and excitement. We are dedicated to providing a secure and fair platform, but equally important is our commitment to protecting our players and promoting a responsible approach to gambling. Your well-being is paramount, and we see responsible gaming as a shared responsibility between you, our valued player, and us, the operator.

Gambling involves risk and should never be viewed as a way to generate income, recover from debt, or solve financial difficulties. We want you to enjoy your time with us safely and within your means.

This policy details the extensive measures, tools, and support systems we have implemented to foster a safe environment. It is developed in strict accordance with the legal requirements of Curacao and fully adheres to the standards mandated by the Responsible Gaming Policy for Licensed Operators, as overseen by the relevant Curacao regulatory authorities.

2. Defining Responsible Gaming: Playing Smart, Staying Safe

Responsible Gaming is about maintaining control, understanding the risks, and ensuring that gambling remains a positive part of your leisure time. It encompasses:

- **Playing for Fun, Not Funds:** Treating gambling as entertainment, not a job or an escape. The money spent is the cost of that entertainment.
- **Understanding the Odds:** Recognizing that outcomes are determined by chance (or skill in some betting forms) and that losses are a real possibility. Familiarize yourself with game rules and payout structures.
- **Setting Clear Limits:** Proactively deciding *before* you play how much time and money you are comfortable spending, and sticking to those limits regardless of wins or losses.
- **Affordability:** Only gambling with funds, you can genuinely afford to lose – money that isn't needed for essential living expenses like rent, bills, or food.
- **Maintaining Balance:** Ensuring gambling doesn't negatively impact your personal relationships, work or study commitments, or mental and physical health.
- **Knowing When to Stop:** Recognizing signs that you might be losing control and having the awareness to take a break or stop playing altogether.

- **Avoiding Chasing Losses:** Accepting losses as part of the game and resisting the urge to bet more in an attempt to win back lost money. This often leads to bigger losses.
- **Playing Sober and Clear-Headed:** Not gambling when under the influence of alcohol or drugs, or when feeling stressed, depressed, or emotionally vulnerable, as this can impair judgment.

3. Understanding and Recognizing Problem Gambling

While most people gamble responsibly, for some individuals, gambling can evolve from entertainment into a harmful behavior often referred to as problem gambling or gambling addiction. This is a recognized health issue that can affect anyone, regardless of background or willpower. It's often progressive, meaning it can start small and gradually worsen over time.

Key warning signs that gambling may be becoming problematic include:

- **Financial Indicators:**
 - ✓ Spending more money gambling than intended or budgeted.
 - ✓ Experiencing difficulty paying bills due to gambling losses.
 - ✓ Borrowing money (from friends, family, loans, credit cards) to fund gambling.
 - ✓ Selling personal possessions to get gambling money.
 - ✓ Constantly thinking about ways to get money to gamble.
- **Time Indicators:**
 - ✓ Spending increasing amounts of time gambling, thinking about gambling, or planning the next session.
 - ✓ Losing track of time while gambling.
 - ✓ Neglecting work, studies, family, or personal responsibilities due to time spent gambling.
- **Emotional & Behavioral Indicators:**
 - ✓ Feeling restless, irritable, or anxious when trying to cut down or stop gambling.
 - ✓ Lying to family, friends, or colleagues to hide the extent of gambling activities.
 - ✓ "Chasing losses" – trying to win back lost money with more gambling.
 - ✓ Needing to gamble with larger amounts of money to achieve the desired excitement (tolerance).
 - ✓ Using gambling as an escape from problems, stress, anxiety, or depression.
 - ✓ Feeling guilt, shame, or remorse after gambling sessions.
 - ✓ Experiencing arguments with loved ones about gambling habits or finances.
 - ✓ Committing illegal acts (e.g., fraud, theft) to finance gambling (in severe cases).

The constant accessibility of online gambling (24/7 availability) can sometimes exacerbate these risks for vulnerable individuals. If you recognize several of these signs in yourself, or are concerned about someone else, it is crucial to seek help. Problem gambling is treatable, and recovery is possible with the right support.

4. Proactive Tools and Resources for Your Control

The Company empowers you with a suite of easy-to-use tools designed to help you manage your gambling activity effectively. These are available directly within your player account profile.

4.1 Confidential Self-Assessment:

- ✓ Purpose: These are questionnaires designed to help you reflect honestly on your gambling patterns and assess if they might be becoming risky or problematic. They are based on recognized diagnostic criteria but do not provide a formal diagnosis.
- ✓ How it Works: Answer a series of multiple-choice questions about your gambling behavior and feelings over a specific period (e.g., the last 12 months). Your responses are confidential.
- ✓ Access: We provide links to reputable, anonymous online self-assessment tools:
 - <https://www.gambleaware.org/>
 - <https://www.gamcare.org.uk/>
 - <https://www.responsiblegambling.org/>
- ✓ Recommendation: We encourage all players to take a self-assessment periodically, even if you don't feel you have a problem.

4.2 Setting Financial Limits (Pre-Commitment):

- ✓ Principle: Setting limits before you start playing is a highly effective strategy. It helps prevent impulsive decisions made in the heat of the moment.
- ✓ Types of Limits:
 - **Deposit Limits:** Restrict the total amount of money you can deposit into your account over a set period (Daily, Weekly, Monthly). Once reached, you cannot deposit more until the period resets.
 - **Loss Limits:** Restrict the net amount of money you can lose (Total Bets - Total Wins) from your deposited funds over a set period (Daily, Weekly, Monthly). This helps protect your bankroll.

- **Wager/Turnover Limits:** Restrict the total amount of money you can place in bets over a set period (Daily, Weekly, Monthly), regardless of wins or losses.
- ✓ Setting/Adjusting Limits: You can set or change these limits anytime in your Account Settings Section
- ✓ Effectiveness:
 - *Decreasing* a limit (making it stricter) takes effect ***immediately***.
 - *Increasing* a limit (making it less strict) or removing it entirely requires a cooling-off period of 24 hours, 7 days, 1 or 3 months before the change takes effect. This delay is mandatory and designed to give you time to reconsider your decision, preventing impulsive increases. You will need to re-confirm the increase after the cooling-off period.
- ✓ Scope: Unless specified otherwise, these limits typically apply globally across your account (e.g., covering sports betting, casino games, etc.).

4.3 Managing Your Time:

- ✓ Session Time Limits: Set a maximum duration for any single login/playing session (e.g., 1 hour, 2 hours). Once the time limit is reached, you may be automatically logged out or prompted to decide whether to continue – configurable in Account Settings.
- ✓ Reality Check Reminders: Activate automated pop-up messages at predefined intervals (e.g., 30, 60, 90 minutes – configurable in Account Settings. These reminders temporarily pause gameplay and display:
 - Time elapsed since the session started.
 - Your total bets and net win/loss position for the current session.
 - Options to: Continue playing, Exit the game, or view your detailed Account History.
 - You must acknowledge the reality check to continue playing.

4.4 Access to Your Activity History:

- ✓ Transparency: We provide easy access to a comprehensive history of your transactions (deposits, withdrawals) and betting activity (bets placed, outcomes, winnings/losses).

- ✓ Purpose: Regularly reviewing your history helps you keep track of your spending and playing patterns accurately.
- ✓ Access: Find your detailed history in the Account Settings.

4.5 Time-Out / Cool-Off Period (Short Break):

- ✓ Purpose: If you feel you need a temporary break from gambling for any reason, a Time-Out allows you to step away for a defined period.
- ✓ Durations: You can choose from predefined periods such as: 24 hours, 7 days, 30 days, 90 days.
- ✓ Process: Request a Time-Out easily via Account Settings option or by contacting Customer Support. The request is usually processed automatically or very quickly.
- ✓ Effect During Time-Out:
 - Your account access is restricted, so You cannot deposit funds or place any bets.
 - You *can* still log in to withdraw any existing withdrawable balance.
 - You will be automatically removed from all marketing and promotional communications for the duration.
- ✓ After Time-Out: Your account access is automatically restored once the selected period expires. If you wish to extend it or consider self-exclusion, you need to take further action.

4.6 Self-Exclusion (Longer-Term Cessation):

- ✓ Purpose: This is a formal process for players who feel their gambling is problematic and need to stop gambling for a significant period, or permanently. It is a more serious commitment than a Time-Out.
- ✓ Durations: You can request self-exclusion for a minimum period of 1 year, 3 years, 5 years and 10 years up to permanent exclusion.
- ✓ Process:
 - Self-exclusion **must be** requested by contacting our trained Customer Support team directly via support link on our webpage. This cannot be activated solely through account settings due to its serious nature.
 - Our team will explain the implications and require your explicit confirmation.

- Once confirmed, the self-exclusion is implemented promptly and is generally ***irrevocable*** for the chosen duration.
- ✓ Effect During Self-Exclusion:
 - Your account(s) with The Company will be immediately closed.
 - You will be blocked from logging in, depositing, or placing bets.
 - Any remaining withdrawable funds in your account will be returned to you via your registered payment method (subject to standard security and verification checks). Details on this process will be provided during the request.
 - You will be permanently removed from all marketing lists.
 - Preventing Re-registration: The Company will take all reasonable measures to detect and block any attempts by you to open new accounts using registered details (name, date of birth, address, email, payment methods, IP address checks where appropriate). However, the ultimate responsibility lies with you to uphold the exclusion agreement. Using false details to circumvent exclusion is a breach of terms.
- ✓ After Self-Exclusion Period:
 - For definite-term exclusions: Your account is *not* automatically reopened. You must proactively contact Customer Support after the exclusion period has ended if you wish to consider returning. A cooling-off period (e.g., 24 hours) and potentially a review process may apply before reactivation is permitted.
 - For permanent exclusions: The account will remain closed indefinitely.

5. Rigorous Protection of Minors (Strictly 18+)

The Company enforces a strict policy against underage gambling. Participation is prohibited for individuals under the age of 18 (or the legal age for gambling in their jurisdiction, if higher).

- **Mandatory Age Verification:** We employ robust verification procedures at various stages:
 - ✓ Registration: Initial checks may occur.
 - ✓ Deposit/Withdrawal: Verification is often mandatory before processing withdrawals or upon reaching certain deposit thresholds.

- ✓ Process: This typically involves submitting copies of official identification documents (e.g., Passport, Driver's License, National ID card) and potentially proof of address (e.g., utility bill). We utilize third-party services and internal checks to validate authenticity.
- ✓ Re-Verification: We reserve the right to request re-verification at any time.
- **Consequences of Underage Access:** If any player is found to be underage:
 - ✓ The account will be immediately closed.
 - ✓ All bets placed will be voided.
 - ✓ Any deposits made may be returned (potentially subject to regulatory guidance).
 - ✓ Any winnings will be forfeited.
 - ✓ The matter may be reported to relevant authorities.
- **Parental Responsibility & Tools:** We urge parents and guardians to take an active role in preventing underage access:
 - ✓ Secure Your Devices: Use passwords/PINs on computers and mobile devices.
 - ✓ Protect Account Details: Never share your login credentials.
 - ✓ Use Filtering Software: Install parental control or filtering software to block access to gambling websites. Examples include:
 - NetNanny (www.netnanny.com)
 - CyberPatrol (www.cyberpatrol.com)
 - GamBlock (www.gamblock.com) - Specifically designed to block gambling sites.
