BUSINESS OBJECTIVE

Sprint Technologies N.V. is a company with the purpose of providing online gaming products targeting the relevant various players which are interested in its variety of Casino and Sports betting products as will be demonstrated further on.

Sprint Technologies makes it a priority to understand the needs of every customer by controlling and operating technical and customer support staff, to provide better service and build a true, honest, and reliable relationship with clients and partners.

The priorities are:

- Creating the most favorable and user-oriented conditions in comparison to other betting companies.
- Providing high quality of service.
- Providing high quality support to its clients.
- Providing the newest and most desirable games on the market.

Sprint Technologies operates via www.spiderbets.com - a website for online casino- games and sports betting where the client can play and/or place bets on any kind of events.

SERVICES

The core products offered by Sprint Technologies are:

Casino

- Slots
- Live Casino

Sports Betting

- Diversity of bet opportunities
- Wide market variety

CORPORATE STRUCTURE, DIRECTORS, AND SHAREHOLDERS

The ultimate beneficial owner of Sprint Technologies N.V. is Mr. Kyriacos Mettis, who has 100% ownership interest in the company.

The corporate governance of the company is handled by Mr. Pavel Perchemliev, acting as the sole appointed director of the company and Allyant Group B.V., which acts as a proxy holder.

FINANCIAL

We have prepared a forecast based on market research and internal projections; the overview shows the development from Year 1 through Year 3. Our expectation is that the service will go live around the third quarter of 2024.

<i>EUR'000</i>	Year 1	Year 2	Year 3
Total Revenue	1695	1865	2088
Total Expenses	1250	1310	1328
Net Profit	445	555	760

COMMERCIAL AND GROWTH STRATEGY

MARKETING PLAN

Over the last years, betting has been making towards the online world. That is why it is necessary for a successful online business to have a competent marketing strategy with the emphasis on internet marketing. Such instruments as SEO Services and Affiliate Marketing Services to help to attract the target audience.

Sprint Technologies is intending to primarily focus on the LATAM market.

PROBLEM WORTH SOLVING

The significant marginality of the online betting industry shows us that there's room for a wider offer of this kind of service. There aren't significant regional operators that we could identify as leaders, but some of the biggest and well-known platforms and markets are European.

OUR SOLUTION

We will make use of IP and geolocation blocking for undesired or sanctioned jurisdictions such as the Dutch Caribbean, The Netherlands, United States, France, North Korea, Syria, Israel and Iran and more. Further, in the long run we plan to develop and implement additional security and restriction protocols.

GENERAL CONTROLS & DUTIES

Sprint Technologies N.V. has separate departments for development, finance, casino management, customer support, payments & fraud, business intelligence and marketing, complementary set-up to our service providers. This is the first control in place. Individuals have clearly defined roles and responsibilities, including reporting lines within the company. As a result, each department has both substance and clarity to enable its goals and objectives.

Sprint Technologies imposes restrictions and fully complies with the accepted legal age of 18+ being the players allowed to use online commercial gaming products.

The risk and compliance departments are responsible for monitoring all transactions to and from Sprint Technologies and verifying the identity of all registered users. Sprint Technologies's employees are fully committed to adopting a risk-based approach to anti-money laundering (AML) with effort focused where it is most needed to be able to process payment transactions between the company and its customers in a way free of money laundering issues. An AML manual outlining the policy and procedures in relation to risk assessment and management has been prepared for this purpose.

The developed internal systems and procedures applied by Sprint Technologies are appropriate for remote gaming businesses. The Company appreciates that its money laundering and terrorist financing risk assessment is not a one-off exercise, and these are assessed regularly so that adopted approach is effective at any time.

TECHNOLOGY, SOFTWARE & PROVIDERS

SOFTWARE AND PAYMENT ARCHITECTURE
