

From Richard John Green
(passport number 452034944)
As UBO and Director of Middle Kang B.V.

To Whom it May Concern

As the Ultimate Beneficial Owner (UBO) and director of two Curaçao-registered companies, Middle Kang B.V. (168291) and Entertainment Planets B.V. (166486), I would like to confirm that these companies operate as independent business entities and are not related. There is no conflict of interest between each of them and they are completely distinct businesses as they offer different types of gaming with a different type of target market as explained below. Entertainment Planets B.V. which runs pokerplanets.com as the name suggests is predominantly focused on poker and has 98% of revenues from poker as opposed to MK.com which targets Sports and Casino types of Gaming and has revenues split 25% from Sports and 75% from Casino type Games.

As explained above, Middle Kang B.V. and Entertainment Planets B.V. serve distinct geographic markets. Middle Kang B.V. intends to operate within the Asian market, with a focus on countries such as Vietnam and China. In contrast, Entertainment Planets B.V. targets CIS countries and Latin America, for example Russia and Brazil. Attached are the screenshots from the relevant websites of both companies, showing the primary interface language used for interacting with target users.

Thus, Middle Kang B.V. and Entertainment Planets B.V. are separate companies with different business activities, management, and target regions, as I hereby confirm.

Please feel free to reach out if you have any further questions. Thank you!
