

Source of Funding Explanation

Please read carefully

GMB Entertainment was freshly established to obtain Curaçao license with XCM and to bring everything up to Par with Curaçao requirements.

The brand is already live and highly profitable however, using Gamba Gaming N.V., whom is currently managed by Downtown E-Commerce company, using an Anjouan License, which isn't allowed.

Gamba.com currently has expansion plans backed by more or less 5 Million EUR from the C-Level Group behind Roobet (Raw Entertainment B.V.)

Since Gamba Gaming N.V. is currently using an illegal license in accordance with Curaçao Law, the group thought it would be best to use a Nominee Shareholder to obtain the new License.

After GMB Entertainment obtains its new license, it will move over the database under the new License using a Correct licensing structure.

Afterwards they will receive fresh funds for growth as laid out in the Business Plan at which time, new investors will go through the DD process of the CGA.

It is predicted to bring Millions in profits and thousands in Tax Payment for Curaçao plus, they will comply with all Local Substance requirements.

The Partners are Keen to move forward with these plans in Early 2026 and will provide whatever is Necessary however we will highly appreciate proper guidance as to exactly what the CGA wants to see.

We were thinking – Financial of Gamba Gaming N.V. plus Financials of Raw Entertainment B.V. and with a Loan Agreement from Raw Entertainment B.V. supplying the above-mentioned 5 Million EUR Investment.

Please let us know if this will be sufficient as Proof of Funding for the Project in order to arrange the same and move to Phase 2.
