Executive Summary

1.1 Overview of the Business

Super Awesome Gaming Alliance B.V. (“SAGA”) is a Curaçao-incorporated business-to-consumer (B2C) online gaming operator established specifically to obtain and operate under a licence issued by the Curacao Gaming Authority pursuant to the National Ordinance for Games of Chance (LOK).

The company will provide regulated online casino services to international players located in jurisdictions where such activities are legally permitted. Operations will be conducted under the trading name **Power Win**.

SAGA has been structured to enter the online gaming market in a controlled, compliant, and scalable manner supported by experienced management, established technology providers, and adequate capital resources.

1.2 Corporate Structure & Ownership

SAGA serves as the licensed operating entity within an international corporate structure designed to ensure transparency of ownership and effective governance.

The company is wholly owned by Vanerino Ltd, a holding company incorporated in Cyprus. Vanerino Ltd provides strategic direction, financial support, and group-level oversight while maintaining a clear separation between ownership and operational activities.

Executive Summary

1.3 Ultimate Beneficial Owner

The Ultimate Beneficial Owner (UBO) of Vanerino Ltd and consequently of SAGA is Mr Jonathan Nahmad. Mr Nahmad holds a majority interest exceeding 59% of the issued share capital of Vanerino Ltd and therefore, exercises ultimate ownership and control over both the holding company and the Curaçao operating entity.

His ownership interest is beneficial and direct, with no nominee arrangements or undisclosed controlling interests.

Minority strategic investors hold non-controlling interests, including Polychain Capital, which holds approximately 8% of the equity following a seed-stage investment.

1.4 Governance & Curaçao Substance

Corporate governance of SAGA is provided through a board structure aligned with the ownership of the holding company.

In accordance with Curaçao substance requirements, SAGA is locally administered by IGA Trust B.V., the company's appointed on-island corporate services provider. IGA Trust provides local directorship, administrative support, regulatory liaison, and corporate maintenance services.

This arrangement ensures that the company maintains an appropriate local presence and complies with ongoing obligations under the LOK regulatory framework.

Executive Summary

1.5 Operational Model

SAGA's operational model is designed for efficient and compliant market entry.

At launch, the platform will integrate certified content from established third-party gaming providers across major verticals, including slot games, live dealer products provably fair games, table games and betting products including live and virtual sports. This ensures immediate availability of tested and player-recognised products. Future enhancements may include proprietary features or additional products, subject to regulatory approval and independent testing by recognised laboratories.

1.6 Compliance Commitment

SAGA will operate in accordance with Curaçao regulatory requirements and internationally recognised best practices, including:

Anti-money laundering (AML) controls - Know-your-customer (KYC) procedures - Sanctions screening
Responsible gaming safeguards - Data protection measures - Secure payment processing - Protection of player funds

1.7 Strategic Objectives

Supported by strong capitalisation, transparent ownership, professional governance, and local substance, SAGA aims to establish a reputable and sustainable presence within the international online gaming market under the supervision of the Curaçao Gaming Authority.

Why Curacao

SAGA has selected Curaçao as its licensing jurisdiction following a comprehensive assessment of available regulatory frameworks for online gaming operators.

The LOK regime provides a modern, transparent, and internationally recognised structure designed to ensure fair gaming, player protection, and the integrity of the industry.

Operating under a recognised licence enhances trust among players, payment providers, suppliers, and business partners. The company will only target jurisdictions where online gaming is permitted and will implement robust geo-blocking procedures to prevent access from restricted territories.

Mission & Vision

Corporate Mission

SAGA's mission is to develop and operate a secure, compliant, and technologically advanced online gaming platform that delivers high-quality entertainment while adhering to the highest standards of regulatory compliance and corporate responsibility.

Company Vision

SAGA, trading as Power Win, aims to become a trusted international online gaming brand recognised for fairness, reliability, and responsible operation.

Strategic objectives include:

- Delivering a diversified portfolio of regulated gaming products
- Maintaining strong governance and operational controls
- Investing in technology and customer experience
- Expanding responsibly into permitted jurisdictions
- Building long-term brand credibility

Corporate Structure & Ownership

Super Awesome Gaming Alliance B.V. is wholly owned by Vanerino Ltd, a Cyprus-incorporated holding company that provides strategic oversight and financial support to the operating entity. Ultimate ownership rests with Mr Jonathan (“Yoni”) Nahmad as majority shareholder of Vanerino Ltd. Minority investors hold non-controlling interests. The structure ensures transparency of ownership, clear governance lines, and effective management while meeting International regulatory expectations.

NOTE:
This Structure shows current ownership in the company in percentage holding and not share amounts held,

SAGA maintains a governance framework aligned with international best practices for regulated gaming operators.

Organisational Team Structure

Local governance and substance in Curaçao are provided by IGA Trust B.V., including the appointment of a local director and provision of administrative services, office facilities, and regulatory liaison.

The Team (IGA Trust)

SAGA is managed by an experienced team of professionals with backgrounds in online gaming, finance, technology, marketing, and corporate governance.

Their combined expertise supports the company's ability to operate a compliant and competitive online gaming platform.

Company Director Curacao

Claire Godschalk

With an established on-the-ground presence in Curaçao, IGA Trust enables us to meet the substance and local presence requirements under the Curaçao regulatory framework, including the provision of local office facilities and key personnel.

As part of this engagement, Claire, who is a senior member of the IGA Trust team, has been appointed as the local Company Director of Super Awesome Gaming Alliance B.V., providing us with local governance, regulatory oversight and continuity of engagement with Curaçao authorities.

MLRO

Florence Borg Farrugia

Florence is a highly respected Digital Forensics and Information Security professional, recognised for her expertise in supporting law enforcement, government entities, and private sector organisations in complex investigations.

The Team (Operational)

CEO/CTO

Pasha Rezapour

Pasha is an entrepreneur and technology leader with a strong track record in crypto, online gaming and venture-backed digital platforms. As both CEO and CTO of SAGA, he uniquely combines strategic leadership with deep technical expertise, aligning commercial vision with robust, scalable technology infrastructure. He has extensive experience building and scaling high-performance gaming platforms, integrating blockchain technologies, and delivering engaging user experiences driven by community growth and innovative product design. His hands-on leadership spans platform architecture, engineering execution, and product strategy, ensuring SAGA's ecosystem is secure, resilient, and designed for long-term scalability.

With a background in venture capital and multi-jurisdictional operations, Pasha brings a strong understanding of governance, compliance, and financial structuring, positioning the platform for sustainable growth within regulated global markets.

Pasha defines and executes SAGA's strategic and technology vision, leading engineering, infrastructure, and blockchain integrations while overseeing platform architecture, scalability, security, and performance. He directs product development across gaming systems, wallet flows, and payments infrastructure, ensuring compliance readiness, operational resilience, and future-proof scalability. As a founder and operator of multiple blockchain-based gaming platforms, he has delivered high-traffic products across Telegram and web platforms driven by strong community-led growth. His experience spans managing large-scale user ecosystems and influencer-driven acquisition models, complemented by a venture capital background at Northstar.vc (London), where he contributed to over \$80M deployed across 26 transactions. He brings expertise in strategic planning, financial modelling, and venture operations, with a core strength in bridging executive leadership and deep technical architecture to deliver secure, scalable and compliant next-generation crypto gaming platforms.

The Team (Operational)

CFO

Thomas Bardawil

Thomas brings more than a decade of financial and operational experience, including private equity, corporate finance and venture operations. He specializes in multi-jurisdictional structuring, financial oversight, and governance frameworks suitable for regulated sectors.

Experience & Expertise:

10+ years of experience in financial markets, holding senior responsibilities across portfolio management, corporate finance, and capital allocation.

Strong private equity background, with firsthand experience evaluating, structuring, and monitoring investments across multiple industries, including tech and gaming.

Served as Financial Director for a major family office, overseeing cross-border financial operations, compliance, reporting, and treasury management.

Director at a US-based venture capital firm, managing financial oversight, audits, governance, and operational compliance.

Skilled in risk management, internal controls, budgeting, and regulatory documentation, ensuring that operational processes align with licensing requirements.

Experienced in implementing AML/KYC-aligned financial workflows, multi-entity bookkeeping, and controlled fund flows—critical elements for an iGaming operator.

The Team (Operational)

CMO

Debashish Bhattacharjee

Debashish is a senior marketing executive with nearly two decades of proven leadership in B2C digital entertainment, iGaming, and high-growth online platforms. He has built, scaled and managed large multi-market marketing operations, with a deep specialization in user acquisition, retention, and digital brand building.

Experience & Expertise:

15+ years in senior marketing and growth roles, overseeing multi-channel acquisition strategies across Europe, Africa and Asia.

9+ years of direct experience in B2C iGaming, including sportsbook, casino, and NFT-driven gaming ecosystems.

8+ years scaling early-stage and mid-stage startups, leading teams responsible for performance marketing, creatives, and GTM strategies.

5+ years in crypto and Web3 marketing, including the successful launch of multiple utility and meme tokens, NFT collections, and Web3 communities.

Proven track record launching and growing crypto-native products, including tokenized ecosystems, Web3 loyalty systems, and blockchain brand activations.

10+ years in performance and acquisition marketing, managing high-budget campaigns, affiliate networks and conversion-optimized funnels.

8+ years in branding, KOL management, and influencer collaborations, delivering consistent growth across social channels.

7+ years in retention, lifecycle management, CRM, segmentation, and data-driven personalization, with hands-on experience in major CRM and automation tools and experience working with compliance teams to ensure marketing alignment with iGaming regulatory requirements.

Portal Administrator

Administrative Advisory Consultant

Edwin Ford

Edwin is a highly motivated, flexible and results-driven Senior Executive with extensive experience in e- Gaming strategy, sales, business development and commercial operations; developed over a four-decade career in the gaming industry. Business Model & Operations

SAGA will operate a B2C online casino platform offering a diversified suite of gaming products to players in permitted jurisdictions. Revenue will be generated primarily through gaming activity, with the company acting as the licensed operator responsible for player relationships, compliance, and financial transactions.

Market Overview

The global online gaming market continues to experience sustained growth driven by technological advancements, Increasing internet penetration, and evolving consumer behaviour.

While the sector is competitive, opportunities exist for well-capitalised operators offering secure platforms, high-quality content, and strong customer experience.

Swot Analysis

SAGA recognises the strengths, weaknesses, opportunities, and threats associated with entering a competitive market. The company will leverage its experienced team, access to technology and strategic partnerships to establish market presence while mitigating risks.

Products & Content

SAGA will offer a diversified portfolio of gaming content supplied by reputable licensed providers.

Products & Content

Originals

Products & Content

All games deployed on the platform will be certified by recognised testing laboratories to ensure fairness, integrity, and compliance.

Marketing Strategy & Compliance

Marketing activities will be conducted in a responsible and compliant manner, targeting only permitted jurisdictions. Strategies include digital acquisition channels, affiliate partnerships, and retention programmes, all subject to regulatory requirements and responsible gaming principles.

The objective is to launch and grow a compliant online casino brand in permitted markets under a Curaçao LOK licence.

Marketing Strategy (Online):

Multi-channel acquisition: SEO, PPC, affiliates, social media, influencers (where permitted).

Localised campaigns for approved jurisdictions only.

Strict geo-targeting & exclusion lists in all paid and organic traffic.

CRM retention: email, SMS, loyalty, VIP programmes.

Clear T&Cs and responsible gaming messaging across all creatives.

Jurisdictional Compliance:

Blocked markets under Curaçao LOK: Netherlands, Curaçao residents, sanctioned countries, and any jurisdictions restricted by licence conditions.

Enforced IP/geo-blocking, KYC/AML checks, and ongoing compliance monitoring.

Affiliates contractually required to target allowed markets only.

Offline & Events:

Brand and partner development through attendance at iGB, SBC, ICE, and other key industry events.

Focus on affiliate recruitment, PSP partnerships, and supplier relationships.

Positioning & Brand Focus:

Emphasis on trust, responsible gambling, fast payments, and a high-quality player experience.

Fully compliant marketing approach with consistent brand messaging.

Technology & Infrastructure

The platform will utilise secure cloud-based infrastructure designed to ensure reliability, scalability, and data protection. Security controls, redundancy measures, and monitoring systems will be implemented to protect operational integrity and player information.

Risk Management

Super Awesome Gaming Alliance B.V. (“SAGA”) recognises that operating an online gaming platform involves a range of operational, financial, regulatory, and technological risks. The company has therefore implemented a comprehensive risk management framework designed to identify, assess, mitigate, and monitor risks on an ongoing basis.

Regulatory and Compliance Risk

SAGA is committed to full compliance with the requirements of the National Ordinance for Games of Chance (LOK) and all applicable regulatory obligations. Internal policies and procedures are designed to ensure adherence to anti-money laundering (AML), counter-terrorist financing (CFT), customer due diligence, sanctions screening, and responsible gaming requirements. Regular reviews of regulatory developments and licensing conditions will be undertaken to ensure ongoing compliance.

Operational Risk

Operational risks arising from system failures, service interruptions, or process deficiencies are mitigated, through the use of reputable technology providers, redundancy planning, and clear internal controls. Key functions such as customer support, payment processing, and platform management are supported by experienced personnel and service providers.

Business continuity planning ensures that essential services can continue in the event of unexpected disruptions.

Risk Management

Financial Risk

Financial risks, including liquidity constraints, payment processing disruptions, and revenue volatility, are managed through prudent financial planning and adequate capitalisation at the group level. The company will maintain appropriate financial controls, budgeting processes, and monitoring systems to ensure stability during both initial launch and subsequent growth phases.

Technology and Cybersecurity Risk

Given the digital nature of the business, cybersecurity and data protection are critical priorities. The platform will utilise secure cloud-based infrastructure with multiple layers of protection, including firewalls, encryption, intrusion detection systems, and access controls.

Regular security assessments and monitoring procedures will be implemented to protect player data, financial transactions, and system integrity.

Market and Commercial Risk

The online gaming sector is highly competitive and subject to evolving consumer preferences and regulatory changes. SAGA intends to mitigate commercial risks through targeted market selection, high-quality content, strong customer experience, and disciplined marketing strategies focused on permitted jurisdictions.

Risk Management

Responsible Gaming Risk

As a B2C operator, SAGA recognises its responsibility to protect players from gambling-related harm. Responsible gaming measures, including self-exclusion tools, deposit limits, age verification, and access to support resources, will be integrated into the platform to promote safe and responsible play.

Ongoing Risk Monitoring

Risk management is treated as a continuous process. Senior management will regularly review risk exposures, operational performance, and compliance effectiveness. Where necessary, policies and procedures will be updated to address emerging risks or regulatory expectations.

Through this structured approach, SAGA aims to ensure the integrity, stability, and sustainability of its operations while protecting players, partners, and stakeholders.

Policies & Procedures

Introduction

The LOK Act 2025 and ancillary legislation aims to:

- Keep gambling crime free
- Protect the young and vulnerable
- Ensure that the facilities offered by licensees are fair and that players receive their true winnings

The above LOK regulatory objectives are specific to B2C operations, as a responsible operator and in the knowledge that a fundamental part of SAGA's business is direct to clients, we are committed in taking all reasonable steps to assist in achievement of the aims within the act.

SAGA has implemented policies aligned with the LOK framework and international standards, covering:

- AML and CFT compliance
- Customer due diligence
- Responsible gaming
- Player protection
- Staff training
- Data security

Conclusion

SAGA enters the market with a clear mission, strong vision, and scalable model.
Backed by advanced technology and experienced founders.
Power.Win is positioned to grow into a leading online gaming brand.
The company is prepared to compete effectively in an evolving global market.
