1.1 ACCOUNTANT'S COMPILATION REPORT

The financial statements of HighBet B.V. have been compiled by us using the information provided by you. The financial statements comprise the balance sheet as at 31 December 2025 and the income statement for the year 2025 for the year then ended with the accompanying explanatory notes. These notes include a summary of the accounting policies which have been applied.

This compilation engagement has been performed by us in accordance with International Standard on Related Services 4410, "Compilation engagements", which is applicable to accountants. The standard requires us to assist you in the preparation and presentation of the financial statements in accordance with the accounting policies as described in the notes. To this end we have applied our professional expertise in accounting and financial reporting.

In a compilation engagement, you are responsible for ensuring that the information you give us is correct and that you provide us with all relevant information. Therefore, we have conducted our work in accordance with the applicable regulations and on the assumption that you have fulfilled your responsibility. To conclude our work, we have read the financial statements as a whole and are satisfied that they present a picture in line with our broad understanding of HighBet B.V..

During this engagement we have complied with relevant ethical requirements. You and other users of these financial statements may therefore assume that we have conducted the engagement in a professional, competent, and objective manner and with due care and integrity and that we will treat all information provided to us as confidential.

2.3 NOTES TO THE FINANCIAL STATEMENTS

Entity information

Registered office, legal form and registration number at the Chamber of Commerce

The registered and actual address of HighBet B.V. is Abraham Mendez Chumaceiro Boulevard 03, in Willemstad, Curaçao. HighBet B.V. is registered at the Chamber of Commerce under number 148202.

General accounting principles

The accounting standards used to prepare the financial statements

The financial statements have been prepared in accordance with the accounting policies selected and disclosed by the company, and as set out in the notes to the financial statements. The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

Basis of preparation

Valuation of assets and liabilities and determination of the result take place under the historical cost convention. Unless presented otherwise at the relevant principle for the specific balance sheet item, assets and liabilities are valued according to the cost model.

Income and expenses are accounted for on an accrual basis. Profit is only included when realized on the balance sheet date. Losses originating before the end of the financial period are taken into account if they have become known before preparation of the financial statements.

Accounting principles

Financial assets

Participations are valued at cost.

Receivables recognised under financial fixed assets are initially valued at the fair value less transaction costs. These receivables are subsequently valued at amortised cost price, which is, in general, equal to the nominal value. For determining the value, any depreciation is taken into account.

Receivables

Receivables are initially valued at the fair value of the consideration to be received, including transaction costs if material. Receivables are subsequently valued at the amortised cost price. If there is no premium or discount and there are no transaction costs, the amortised cost price equals the nominal value of the accounts receivable. Provisions for bad debts are deducted from the carrying amount of the receivable.

Cash and cash equivalents

Cash at banks and in hand represent cash in hand, bank balances and deposits with terms of less than twelve months. Overdrafts at banks are recognised as part of debts to lending institutions under current liabilities. Cash at banks and in hand is valued at nominal value.

Equity

When HighBet B.V. purchases treasury shares, the consideration paid is deducted from equity (other reserves or

any other reserve if the articles of association allow so) until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received is included in equity (other reserves or any other reserve). The consideration received will be added to the reserve from which earlier the purchase price has been deducted.

Incremental costs directly attributable to the purchase, sale and/or issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Share premium

The share premium originates from overpayments on the face value of the shares.

Other reserves

Other reserves are all reserves, except the legal and statutory reserves. Other reserves can freely be distributed to the shareholders.

Current liabilities

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received taking into account premiums or discounts and minus transaction costs. This is usually the nominal value.

Accounting principles for determining the result

The result is the difference between the realisable value of the goods/services provided and the costs and other charges during the year. The results on transactions are recognised in the year in which they are realised.

Revenue recognition

Net turnover comprises the income from services after deduction of discounts and such like and of taxes levied on the turnover.

General and administrative expenses

General and administrative expenses comprise costs chargeable to the year that are not directly attributable to the cost of the goods and services sold.

Income tax expense

Tax on the result is calculated based on the result before tax in the income statement, taking account of the losses available for set-off from previous financial years and exempt profit components and after the addition of non-deductible costs. Due account is also taken of changes which occur in the deferred tax assets and deferred tax liabilities in respect of changes in the applicable tax rate.

2.4 NOTES TO THE BALANCE SHEET AS AT 31 DECEMBER 2025
