Principal activity of the Company

The Company is mainly engaged in the object of the company is to develop, create, market, resell and provide online betting software consisting of all types of interactive games to third parties .

Accountability

All financial information have been processed in a competent way.

The financial statements have been prepared in accordance with applicable accounting principles, and to the best of our knowledge gives a true and fare view of the assets, liabilities and financial performance of the Company.

Result and dividends

The result of the year are set out on page 3.

The Company incurred a loss of EUR 8,313 for the year 2024.

No interim dividend has been issued during the year.

Fiscal position

The fiscal year of the Company runs from October 17, 2024 through December 31, 2024.

As of 01 January 2020, the territorial profit tax system was introduced in Curacao. The services that Lord Structure B.V. provides are subject to this tax system which stipulates that only income derived from a domestic enterprise is included in the taxable basis for profit tax return with due observance of the "causality of costs" factor.

Causal costs are costs which have a direct causal effect on the profit generation capability of the active enterprise. Non-causal costs are costs which do not have a direct causal effect on the profit generation capability of the active enterprise. The domestic profit is determined based on the ratio between foreign causal costs and domestic causal costs.

Current & Future Developments

There were no important current events, which has a bearing on the understanding of the financial statements.

There were no material post balance sheet date events, which have a bearing on the understanding of the financial statements.

Notes to the Financial Statements
for the year ending December 31, 2024

(1) Significant accounting policies

a) Basis of Accounting

The financial statements of the Company has been prepared in accordance with applicable accounting principles.
Assets and liabilities have been recognized against historical costs and stated at their nominal value, unless mentioned otherwise.

b) Revenue recognition

Sales Revenue represents the commission income. Revenue is recognized in the statement of financial performance on an accrual basis.

c) Foreign Currencies

Transactions denominated in other currencies are translated into EUR at the average exchange rates prevailing during each month. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the exchange rates prevailing at that date.
Any realized gain or loss arising from a change in exchange rate is included as financial gains or losses in the Income Statements.

d) Taxation

Profit tax is accounted for using the taxes payable method. The profit tax expense charge to the statement of financial performance is the estimated tax payable for the current year, adjusted for any differences between the estimated and actual tax payable in prior years.

e) Cash and cash equivalents

Cash and cash equivalents include cash and deposits held at banks.
