

GAME AGGREGATION Platform

One API, one contract, and access to over 13,000 games from 140+ providers, plus powerful promo and feature tools.

BlueOcean Gaming's GameHub is setting a new standard for single API aggregation of casino games. A true next-generation augmented solution, it is the quick and easy way to take your existing online casino business to the next level.

A large, stylized blue wave or swoosh graphic that curves from the bottom left towards the top right, framing the company name.

WHO WE ARE

Our company

BlueOcean Gaming is a B2B online casino software provider with more than 10 years of experience in the online gaming industry.

Our mission is to offer quality software solutions for online casino operators, stimulate their business and consequently their growth. With a time-saving and reliable all-in-one casino platform combined with our team expertise we meet our client needs and achieve remarkable results together.

WHAT WE DO

Our solutions

Our lead product is GameHub, a game aggregation platform, which allows casino operators to quickly launch more than 90 casino game providers with one API integration and a single contract.

Other products we develop include White Label and Turnkey solution which both provide clients with a complete suite of products and services required to start their own online casino.

Two thick, wavy blue lines originate from the left side of the frame. One line curves upwards and to the right, while the other curves more steeply upwards and to the right, crossing the first line.

WHAT MAKES US GREAT

Our qualities

With more than 100 satisfied clients who benefit from our solutions, we are driven by knowledge, hard work, and commitment to deliver quality software and a set of additional features which make our client's business run smoothly.

ENHANCING CASINO EXPERIENCE, One Feature at a Time!

We present to you GameHub Tools - a perfect blend of features and promotional tools enabling operators to unlock new potential, save time, and enhance business efficiency.

GameHubTools

Promo Tools

Fuel Jackpots

- › A versatile and user-friendly tool, offering the flexibility to create network or standalone jackpots across all games and providers.

Leaderboards

- › Available across our entire gaming library of more than 110 game providers and 10.000 casino, live casino, virtual and crash games. The main advantage of the Leaderboard tool is to create personalized promotions and consequently increase the game-play and turnover.

Feature Triggering

- › Option to grant players a direct entry into the in-game bonus feature of the selected game.

FreeRounds

- › Allow each operator to distribute free spins to selection of their players (based on operator own logic), all this through single implementation that works with all game providers supporting free rounds.

Feature Tools

Client Area

- › Our Client Area is an exclusive portal where you can effortlessly access all relevant information about upcoming game releases, promotions and more.

Automated Games Catalog

- › Fundamental part of the GameHub API since its initial release in 2012. Over the years, it has evolved into a comprehensive tool, providing operators with complete game descriptions, game information such as category, RTP value, volatility level, and a wide range of graphic game assets.

GameHistory

- › Allows access to detailed game history with graphically represented result of the game and option for operators to incorporate it to their own back-office, which is especially efficient for their support department.

Unified Jackpot Feed

- › With more than 100 satisfied clients who benefit from our solutions, we are driven by knowledge, hard work, and commitment to deliver quality software and a set of additional features which make our client's business run smoothly.

Ocean full of **CASINO GAMES**

We work with leading casino software providers; across all our gaming solutions you can get more than 13.000 online casino games from more than 140 game providers.

... and many more!

Thank you for your attention
