

To: Curaçao Gaming Authority

Subject: Data Storage Obligation – Request for Extension

We, Breakout Group B.V., a company incorporated in Curaçao with its principal place of business at Schout Bij Nacht Doormanweg 40, hereby address the pending item concerning the Data Storage Obligation.

As required, license holders must digitally store player information in a Tier-IV certified data center in Curaçao. At present, we have not yet executed a data storage agreement, as we are awaiting official confirmation and guidance from the Curaçao Gaming Authority regarding which Tier-IV certified data centers and intermediary service providers will be formally approved for this purpose.

We are fully committed to complying with this obligation and are ready to finalize an agreement without delay once the regulator has issued its instructions.

In light of the above, we respectfully request an extension of the deadline to provide the finalized agreement until the Curaçao Gaming Authority provides its official confirmation.

We thank you for your attention and look forward to your guidance.

Sincerely,

For and on behalf of
Breakout Group B.V.
Managing Director of eMagnus
Curacao B.V. Andrea Engelhardt
