1. Background

Personal Profile

I am an Entrepreneur with a broad experience in building businesses around digital items and gamification. I build operations from the ground up, rather than purchasing existing operations and leverage them.

My objective is to be in the first position on any project that's being worked on – and I already having accomplished success with being first in the two of the businesses I currently run.

I find my strength at grouping together talented people and motivating them to work towards a common goal, and able to see particular strategies and tactics which are overlooked by others and executing extremely quickly. I am not a procrastinator.

Early days

My first attempt at running a business was founding www.bigboibets.com in 2013. This was the world's first virtual currency online casino that I launched from my bedroom with no business experience. The casino used to process deposits and withdrawals with RuneScape Gold. The website offered poker and dice services and ran consistently for 7 years. This business was sold in 2020 and now forms part of runechat.com

www.bigboibets.com did not generate any material wealth but served as an excellent launching pad into the business world.

2.1. www.csgoroll.com

About

Counter-Strike: Global Offensive' (hereinafter, 'CS:GO') is a multiplayer tactical, first-person shooter game where two opposing teams compete to repeatedly complete objectives, such as securing a location.

CS:GO allows players to wear 'skins' to personalise their gaming experience. A skin changes, for example, how a weapon is worn; how the weapon appears and so on. Some skins are rare which makes them sought after. The skins are created by a third-party platform called Steam (see <https://store.steampowered.com>).

Skins are earned by playing the CS:GO game and which then can be exchanged on marketplaces. www.csgoroll.com was set up in 2016 to facilitate such exchange of skins and it has become one of the largest go-to marketplaces for CS:GO skins. Furthermore, www.csgoroll.com has added certain ancillary chance-based games which allows users to buy credits with a view to win skins.

Stats

According to similarweb.com - a service that provides ranking on certain websites - www.csgoroll.com has the following ranking data for April 2023:

Category	Total visits	Comments
Total visits	7m	For the month of April, 2023
Global Ranking	#4,972	Compared to all other websites in the world
Country Rank	#4,113	Compared to other websites in the USA. Similarweb computes this ranking by selecting the country where it gets its most traffic from
Category Ranking	#125	Compared to other video game websites in the USA.
Average visit duration	10 minutes	
Bounce rate	11.91%	
Pages per visit	17.43	

The above are extremely healthy metrics. For some context, ebay.com, which is the flagship website operated by eBay Inc - a public listed company with a market cap of \$24 billion had the following metrics for the same month according to similarweb.com

Category	Total visits
Total visits	700m
Global Ranking	#40
Country Rank	#14
Category Ranking	#2
Average visit duration	7 minutes
Bounce rate	36.92%
Pages per visit	6.91

The traffic of csgoroll.com accounts for 1% of the traffic processed by ebay.com. This is significant in the light of the popularity and market cap of eBay Inc. Furthermore, the other metrics (pages per visit, bounce rate etc) of csgoroll.com are substantially healthier than that of ebay.com. To compare on a like to like basis, one should for example refer to total page views – those of www.csgoroll.com stand at 2.5% of ebay.com.

The above metrics are a demonstration of the huge success www.csgoroll.com has become. The website has contributed to a relatively large portion of my wealth.

2.2. *www.hypedrop.com*

About

www.hypedrop.com is an online mystery box shop that gamifies the shopping experience. The operations largely target North American and European online shoppers. The primary objective of the business is to bring integrity and transparency to the Mystery Box landscape.

Mystery boxes are ultimately a form of entertainment but also serves as an effective marketing tool by including less popular items with products that are generally sought after. Mystery boxes are generally based on a theme and this gets customers to try products of interest to them which, otherwise, they would have not purchased.
