5. Underage Gaming

It is strictly illegal for anyone under the age of 18 or legal betting age in their respective jurisdiction to open an account or to gamble at our website.

Omega Entertainment N.V. only accepts players over the age of 18.

We carry out age verification checks on all customers and reserve the right to request confirmation of identity.

Please note that anyone under the age of 18 found to be using the site will have any winnings forfeited, no access to the site and may also be reported to the law enforcement authorities.

We strongly recommend that parents cooperate to protect their children from free access to gaming sites.

6. Website Blocking Software

This can be useful to help any parents control the websites that children or young people can access.

Many internet providers will offer you a free option or solution to let you block or place filters on your account to further protect children from accessing adult sites.

There are also a number of third-party applications that you can use to monitor or restrict access to the internet:

1. Net Nanny: www.netnanny.com General blocking software that protects children from inappropriate web content. Also available on iOS and Android devices.
2. CYBERSitter: www.cybersitter.com Filtering software allows parents to choose their own sites to block.
3. GamBlock: www.gamblock.com Specific blocking software for gambling websites. Also available for Android devices.
4. Betfilter: www.betfilter.com Specific blocking software for gambling websites. Also available for Android devices. Many mobiles, tablets and PCs have built-in parental controls that you can use.
5. Limitation and self-exclusion (time-out). The following types of requests can be submitted:
 - i. Limitation of maximum cumulative amount player can wager over certain period of time (day, week, month);
 - ii. Limitation of an amount player can lose over certain period of time;
 - iii. Limitation of maximum time spent logged into system over certain period;
 - iv. Opting out of gaming for a period of time up to one month is called a TIME-OUT (shorter period than that of self-exclusion).
 - v. Self-excluding themselves from betting for a period of time or permanently.

7. Setting Limits

We would encourage players to set limits on their accounts to manage their betting, and to be aware of what they are spending, losing or the time they play.

If a player tries to make changes to any active limitations set, the following rules will apply:

- i. If the change request seeks to decrease the cash limit set to spend then such request will be activated immediately upon receipt by Customer Support Department.
- ii. If the change request seeks to increase the cash limit set to spend then such a request will not come into effect until 7 calendar days since the last limitation relating to the subject was enforced.

8. Time-Out

8.1. Should any player need to limit their gaming or even take a break, the Company encourages the player to contact our Customer Support Department. Time-Out is a facility that allows a player to take a short break from sports betting with us. Players can select from a period of 24 hours, 48 hours, 7 days, 30 days.

8.2. Once the opt out session has begun then the player cannot use the account for betting. They can however log on to withdraw any remaining balance.

8.3. If the change seeks to increase the amount of time you have set to opt out of betting, then such request will be activated immediately upon receipt by Customer Support Department.

8.4. If the change seeks to decrease the amount of time set to opt out of betting, then such a request will not come into effect until 7 calendar days since the last limitation relating to the subject was enforced.

9. Self-Exclusion

9.1. Self – exclusion is a formal process whereby a customer will request us to prevent them from being able to access our products or services for a specified period, or in some cases indefinitely.

9.2. Players can self- exclude for 1 month, 6 months, 1 year, 2 years, 5 years or indefinitely.

9.3. Once a self – exclusion has been activated customers cannot access their account. An arrangement will be made to pay any balance on the account.

9.4. A self-exclusion cannot be overridden, cancelled, or changed until the period by which the self-exclusion finishes has been reached.

9.5. When the period of the self-exclusion has finished, and the customer wishes to re-open their account they must contact Customer Support Department and request this. The account will be reinstated once a period of 24 hours has elapsed, giving the customer a cooling off period to decide if it is the correct decision.

9.6. Customers can also extend their self-exclusion following the normal guidelines for exclusion.

9.7. During Time-Out and Self-exclusion, the Company will do everything to suppress any marketing sent to any customers who have opted for these measures.

10.Fair and open Gaming

10.1 All bets will be accepted in accordance with the current LINE - a list of Markets with the fixed odds and winning coefficients established by the Company.

The odds can be changed by the Company after the bets are placed, but the conditions of bets remain intact.
