IMOON CRASH

IMOON CRASH is a thrilling game where a rocket blasts off into the sky, with players racing to cash out their bets before the rocket explodes.

Objective:

- Predict how high the rocket will go and cash out before it explodes. The longer the rocket flies, the higher the multiplier, but waiting too long risks losing the bet.

Starting the Round:

- A new round begins when the rocket launches. The multiplier starts at 1.01x and increases steadily until the rocket explodes. The highest multiplier the player can get is 100x.
- There is a chance that the rocket may not launch at all, and the round will end immediately.
- There is a 7-second countdown before the next round starts. Note that the timer only indicates the remaining time until the start of the next round.

Placing Bets:

- Players place their desired bet amount before the round begins.
- Adjust bets using controls like (1/2) and (2x) to fine-tune the stake.

Cash Out Mechanism:

- Tap the Cash Out button to secure the winnings at the current multiplier.

Rocket Explosion:

- If the rocket explodes before player cash out, player lose the bet for that round.

Fast-Paced Gameplay:

- Rounds are quick, with minimal downtime between explosions and the next rocket launch.
