

TECHSOLUTIONS GROUP N.V.

RESPONSIBLE GAMBLING POLICY

Curacao, 2025

TECHSOLUTIONS GROUP N.V. offers its clients a wide and high-quality selection of online games and other entertainment. TECHSOLUTIONS GROUP N.V. also cares about its clients, that is why we encourage responsible gambling.

The purpose of the responsible gambling policy of TECHSOLUTIONS GROUP N.V. is to minimize the negative consequences of gambling. The key task of this policy is to ensure that appropriate measures are taken promptly to encourage responsible gambling among our clients.

Each of our clients can choose the type of entertainment they want without extra costs and receive the best service. All the choices we offer are completely safe, as the main principles of TECHSOLUTIONS GROUP N.V. are honesty, reliability, and security. We will do our best to avoid even the slightest problems that may arise during the betting process.

Gambling in online casinos is mostly conducted for entertainment purposes. However, there is a certain percentage of clients who lose control while playing. Before you start playing, it is important to realize that gambling should not be considered as a source of income or a means of paying off debts. It is useful to track the time and amount of money spent in online casinos on a daily basis.

Based on a responsible and fair attitude to the game process and to each client in particular, TECHSOLUTIONS GROUP N.V. maintains a responsible gambling policy among its clients.

Our responsible gaming policy ensures that:

- ◆ There are no players under the age of 18 in the game.
- ◆ There are no vulnerable players on our website.
- ◆ There are no illegal players on our website.
- ◆ Our software is fair in all our games.
- ◆ You can leave the game at any time if you feel that gambling is affecting you negatively.

In addition, as a client, you have the option to put a loss limit on your account (among other limits such as «Deposit», «Time», «Cooling Off», «Wager», and «Self-Exclusion» that can be applied in «Responsible Gambling» tab of your Personal Profile).

To clarify the functionality of this limit, the loss is based on the deposit made by the player and not on winnings that are attributable to the deposit amount. If a player, for example, deposits €100, has a loss limit of €30 and the player goes on and wins €2,000, the player can still lose more than €30 of the €2,000 balance as it's based on the initial deposit instead of the winnings.

Client security

TECHSOLUTIONS GROUP N.V. cares about the safety of its clients. Player protection includes the prohibition of gambling by persons under the age of 18, vulnerable persons, as well as the protection of player privacy, including the secure storage & processing of player data and payment information.

Prevention of gambling addiction

The majority of clients who spend their leisure time gambling online place bets on sporting events and play for fun in a moderate amount.

TECHSOLUTIONS GROUP N.V. strongly recommends to players to regularly assess their gaming habits and to suspend their gambling activities if signs of gambling addiction occur.

If you notice any changes in your gaming behavior, we recommend that you contact the appropriate organizations for quick and professional advice and support:

- [Gambling Anonymous](#)
- [GamCare](#)
- [Gambling Therapy](#)

If you feel you may have a problem with your gambling, ask yourself the following questions:

1. *C – Cut Down: Have you ever felt you should cut down on your gambling?*
2. *A – Annoyed: Have people annoyed you by criticizing your gambling habits?*
3. *G – Guilty: Have you ever felt guilty about your gambling?*
4. *E – Eye-Opener: Have you ever had a morning "eye-opener" to steady your nerves or recover from gambling losses?*

Interpreting the Results

- *0 Yes Answers: Low risk for gambling problems.*
- *1 Yes Answer: Moderate risk; further assessment may be needed.*
- *2 or More Yes Answers: High risk; further evaluation and intervention are strongly recommended.*

If the result is 2 or more, you may wish to seek help and advice through the channels outlined above or explore the available responsible gambling tools.

If you think you're starting to spend more money than you can afford, or if your gambling addiction is starting to disrupt your normal routine, we strongly recommend a few measures that can help. For example, you can set personal limits on your gambling activity, choose to isolate yourself, or seek help and support from independent organizations you trust or the ones mentioned above.

Any player is able to access a record of their betting and wagering history of a last 6 (six) months, longer periods of transaction shall be requested from TECHSOLUTIONS GROUP N.V.
