Guided by the recommendations set forth by the Financial Action Task Force (FATF), Caravan Media B.V. is committed to fostering a shared understanding of the RBA, which includes outlining key principles for its implementation and promoting best practices tailored to various risk factors.

Caravan Media B.V. employs a rules-based framework to evaluate whether a risk-based strategy should be implemented, taking into consideration specific risks associated with money laundering and terrorist financing, as well as the size and nature of the activities in the jurisdictions where the company operates. For example, the Anti-Money Laundering (AML) department takes the lead in drafting the AML and CFT policy, with the completion of the document being a joint effort between the Legal and AML departments to guarantee a comprehensive and competent outcome.

The Responsible Gambling Officer is responsible for initiating the development of the Responsible Gambling Policy and Procedures, which reflect the Company's fundamental values and prioritize socially responsible marketing and player protection.
