

RESPONSIBLE GAMING

Great Star N.V. firmly believes that gambling should be an exciting recreation. We are determined to endorse responsible betting and promote awareness of problem gaming, implementing intervention and taking the necessary measures if customers bet beyond their means. There is a solution to every problem, and we know how one can get rid of that feeling of insecurity and addiction, giving you peace of mind while gambling online.

Retaining Control

We want to minimize the negative effects of problem gambling and to promote responsible gaming practices. **Great Star N.V.** is all about a legacy of passion and fun – and even when you engage in the game, you should play responsibly, within your limits. Here, below, you can find all the info you need, should you find yourself or your loved ones in need of help:

- Gaming is not a method of getting rich for a short period. You should not gamble in order to clear any pre-existing debts.
- Don't invest more than you can afford.
- Before you start playing, read thoroughly the rules of the game – you need to know exactly what to expect.
- Playing games at **Great Star N.V.** should be your own decision, don't fall under peer pressure.
- By chasing wins and recovering losses, you might risk losing more money than you have expected. Make sure you don't do it.
- Before you start playing, set limits to how much you want to invest and stick to these. Don't surpass your limits.
- If your game is affecting your personal life, you need to stop playing immediately. An unhealthy dependence on gaming should be treated properly.

At **Great Star N.V.**, we care about your wellbeing the most. If you think that you are spending too much time gambling at **Great Star N.V.**, or if you are affecting the beloved ones, you need to take a break.
