General notes

The most important activities of the entity

The activities of Loka IT Solutions N.V. consist mainly of:

General accounting principles

The accounting standards used to prepare the financial statements

The financial statements are drawn up in accordance with the provisions of Title 9, Book 2 of the Dutch Civil Code and the firm pronouncements in the Dutch Accounting Standards, as published by the Dutch Accounting Standards Board ('Raad voor de Jaarverslaggeving').

Assets and liabilities are generally valued at historical cost, production cost or at fair value at the time of acquisition. If no specific valuation principle has been stated, valuation is at historical cost.

The functional currency

Foreign currency translation and the processing of foreign currency translation differences in foreign currency transactions

Transactions in foreign currencies are stated in the financial statements at the exchange rate of the functional currency on the transaction date.

Accounting principles

Current liabilities

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received taking into account premiums or discounts and minus transaction costs. This is usually the nominal value.

Accounting principles for determining the result

The result is the difference between the realisable value of the goods/services provided and the costs and other charges during the year. The results on transactions are recognised in the year in which they are realised.

General and administrative expenses

General and administrative expenses comprise costs chargeable to the year that are not directly attributable to the cost of the goods and services sold.

Notes to the balance sheet
