Responsible Gambling and Self Exclusion

Responsible Gambling

Gambling means entertainment, fun and excitement for the majority of our users. But we also know that for some of our users, gambling has negative side effects. In medical science, pathologic gambling has been recognised for many years as a serious sickness.

Since our first day, we have thought about this problem and try our best to help where we can. Under "Responsible Gambling", We understand multiple steps of measures, with which a gambling provider can help to reduce the possibility of negative side effects appearing. -In case they already appear, we also try to take active steps against them.

The most important instruments against negative side effects from gambling are knowledge and education about the risks of gambling to support our users' self-control.
