3 Introduction and Policy Statement

Betboro is committed to promoting responsible gambling and protecting players from gambling-related harm. This policy outlines the tools, procedures, and safeguards in place to ensure a safe and transparent gaming environment in compliance with Curaçao's 2025 regulatory framework.

BetBoro believes in a responsible attitude towards gambling and has implemented measures detailed within this policy to promote and ensure responsible gambling. BetBoro believes that industry, government and the community have a shared responsibility to help prevent the development of gambling related problems, and to ensure that problem gambling support services are available for those individuals requiring assistance.

For most people, gambling is a pleasurable leisure activity and an enjoyable form of entertainment. BetBoro appreciates that for a small number of people, gambling can have a negative impact on their life. As a result, BetBoro has developed this Responsible Gambling Policy (the '**Policy**') which outlines certain practices adopted by us when providing services to our customers. As a general principle no credit shall be offered to customers for the purpose of wagering.

BetBoro supports problem gambling and makes an annual contribution of 0.1% of its total gross gaming yield to a problem gambling research/support charity.

As part of BetBoro's problem gambling initiative all staff receive responsible gambling training as part of the induction process and annually thereafter.

4 Responsible Gambling

Responsible gambling involves the conduct of gambling in a manner where the potential for harm associated with gambling is reduced.

BetBoro respects the rights of our customers to enjoy our services and to take responsibility for their own conduct, but also acknowledges our own responsibility to our customers to provide them with appropriate information that may assist them to manage their gambling.

BetBoro's aim is to ensure that customers make informed decisions about gambling and if that customer requires assistance, to facilitate their access to gambling help services.

The Responsible Gaming Policy for Licensed Operators as issued on April 17, 2025 by the Curacao Gaming Authority (hereafter: 'RG Policy CGA') sets out various obligations which must be adhered to. As part of the RG Policy CGA, the Company will prominently display:

- The license details through the dynamic seal on the page(s);
- A sign which indicates that under-age gaming is prohibited;
- A 'responsible gaming' message, explaining that gaming can be harmful if it is not controlled, and information about the Customer support measures;
- A direct link leading to the responsible gaming section which includes all relevant responsible gaming information required by the CGA;

- A direct link which enables Customers to refer to one or more gambling support organisations;

We prioritize the protection of our Customers through the following measures:

- **Age Verification:** Customers must be at least 18 years old to participate in any gaming activities. Age verification is done during the account registration process. In the unlikely event that an underage Customer does manage to play, all deposits will be returned to the customer regardless of win or loss. The account will be closed immediately. The company will retain records of all age verification process and their outcomes according to the Company's record keeping obligations and for regulatory review by the CGA.
- **Self-Assessment Tools:** We provide self-assessment tools to help Customers evaluate their gaming behaviour and identify potential risks. These tools are accessible via our website;
- **Behaviour Tracking:** Our system monitor Customer behaviour to detect signs of problem gambling and intervene when necessary. This includes tracking deposit patterns, frequency of play, and time spent on gaming activities;
- **Deposit Limits:** Customers can set daily, weekly, or monthly deposit limits to manage their spending;
- **Cool-off periods and Self-exclusion:** Customers can opt for temporary cool-off periods or self-exclusion to take a break from gaming. Self-exclusion can be set for periods ranging from 1 year to lifetime.

Information Visibility

The Company ensures that players can easily access responsible gaming information by:

- **Visible Links:** Our homepage displays a link to the responsible gaming policy, tools, and contacts. These links are also included in the footer of the homepage on our website
- **Terms and Conditions:** Clear references to our terms and conditions, including the prohibition of underage gambling, are provided. The terms and conditions are easily accessible and written in plain language;
- **Responsible Gaming Organizations:** Links to organizations that offer support for gambling addiction are available. These include local and international organizations, as per this policy.

5 Problem Gambling

Problem gambling occurs when there is a lack of control over gambling, particularly the scope and frequency of gambling and the amount of recreational time spent gambling.

'Stay in control. Leave before you lose it. Gamble responsibly.'

The negative impacts may include:

- Extreme financial losses relative to their sources of income.
- Adverse personal effect on the customer, his or her family and friends.
- Adverse effect on employers and work performance.

BetBoro's aim is to achieve equilibrium in the provision of gambling services, considering those customers who enjoy our services and use them as a form of entertainment, the wellbeing of our customers who have an acknowledged gambling problem, their families and the community at large.

6 Self-Exclusion

Self-exclusion is recognised by the gambling industry as a way for players to control their gambling. BetBoro offers a self-exclusion facility to help those customers who feel that their gambling is out of control and want our assistance to help them stop. The Company takes all reasonable steps to refuse service or to otherwise prevent the individual who has entered a self-exclusion agreement from participating in gambling.

The self-exclusion request shall be applicable:

- A. To all brands/domains operated under the Company;
- B. All gambling activities related to one Casino vertical available on the Company's domain. If such option is provided by the Company to the Customer, as otherwise the self-exclusion under A will be provided for all gambling activities of the Company¹;
- C. All advertisement activities of the Company. An automatic opt-out will be triggered when self-exclusion is activated

It is also BetBoro's policy to close an account which shows signs of a gambling problem, for example, if a customer mentions that he/she has financial difficulties as a result from overspending on gambling, this will indicate that the customer has a gambling problem, and the customer support team would enquire further and take appropriate action.

Any person wishing to self-exclude from our services can obtain information from us by contacting customer support by live chat or email or by clicking the responsible gambling link on the footer of our website.

BetBoro will take all reasonable steps to ensure that customers on our self-exclusion register are prevented from using their existing accounts or opening new accounts. Whilst on the self-exclusion register, customers also have certain obligations contained in the terms and conditions that they acknowledge when joining the self-exclusion program.

¹ Casino verticals are types of groups wagering activity available on the domain of the online casino, such as casinos (i.e. slots, table games) and sports betting (i.e. horsebetting)

Customers can navigate directly to details of how to self-exclude through the responsible gaming page at the footer of the website(s). The responsible gaming page states as follows:

We close and prevent access to your online account for a specified period (between six months and five years). Your account can only be opened again after expiry of the self-exclusion period and following a 24-hour “cooling off” period where you are asked to fully consider your decision to resume gambling. After this deadline, please contact us again if you wish to extend your self-exclusion. Please note that you are not able to reduce or cancel your self-exclusion period.

For further details, please contact our support team or refer to the Terms and Conditions and Responsible Gaming.

The Company has the following procedures designed to ensure the self-excluded customer cannot gain access to gambling:

- Register of those excluded with appropriate records (name, address, other details, and any membership or account details that may be held by the operator);
- A record of the card numbers to be excluded.
- Staff training to ensure that staff can administer effectively the systems; and
- The removal of access from those persons found to have gambled or who have attempted to gamble on the facilities.

The Company then signposts the individual to counselling and support services and encourages extending their self-exclusion to other remote gambling operators and making use of the national multi-operator self-exclusion scheme (GAMSTOP).

6.1 Self-Exclusion via Online

A customer can self-exclude automatically via the ‘My Account’ function online. Customers can self-exclude for a period of 6 months, 1 year, 3 years, or 5 years, 10 years or indefinite.

Upon the implementation of self-exclusion, the following is undertaken:

- Customer account is flagged as self-excluded.
- Customer is signposted to counselling and support services.
- Customer will be unable to participate in any gambling activity.
- Customer will be removed from BetBoro’s marketing database immediately after the account has been flagged as self-excluded.
- All unsettled bets will be void and stakes are refunded.
- All remaining funds within the customer’s account are returned to the customer.

6.2 Self-Exclusion via E-mail or Live Chat

A customer can self-exclude by contacting customer support by live chat or e-mail. Upon receipt of a request to self-exclude via these methods the customer’s account should be deactivated immediately whilst, if necessary, further information is sought. If the request is received by e-mail, or live chat whilst the customer is not logged in,

BetBoro will request that the customer verify their identity by answering a random combination of security questions such as:

- Date of birth
- Telephone number
- First line of address clarification.

The customer must then advise what type of exclusion they would like to pick and then confirm whether they understand the consequences of self-excluding. By telephone, email, or live chat, this can be a direct question to the customer asking whether they understand.

Once the chat or phone session has ended, Customer Support will place a note on the account to explain they were contacted by the customer to self-exclude. The above self-exclusion stages then apply.

When BetBoro have confirmed the identity of the customer, the following is undertaken:

- Customer's account is flagged as self-excluded
- Customer is signposted to counselling and support services
- Customer is unable to participate in any gambling activity
- Customer is removed from BetBoro's marketing database immediately after the account has been flagged as self-excluded
- All unsettled bets and ante-post bets will be void and stakes refunded
- All remaining funds within the customer's account are returned to the customer
- No Advertisement activities shall be conducted towards the customer.
- Any payment method used by the customer will be blocked by the Company for future use during the term of the self-exclusion period.
- Contributions to progressive jackpots that were made by the Customer through gameplay prior to the self-exclusion request remain, but the Customer is no longer entitled to participate with the jackpot after the self-exclusion is in effect.
- Any payment method used by the Customer will be blocked by the Company for future use during the term of the self-exclusion period.

The Company will implement measures to prevent self-excluded Customers from creating new Customer's account under different credentials.

The Company will retain records of self-excluded requests by Customers according to the applicable record keeping requirements.

Documents **Self - Exclusion** Time - Out Reality Check Accumulated Losses

You will enter a voluntary self-exclusion agreement, preventing access to your online account for the time period specified (between 6 months and 5 years). Once you have made the decision to self-exclude with Betboro, this is irrevocable.

Whilst every effort will be made on our side to ensure that you do not open accounts under this licence, we cannot be held responsible if you attempt to open accounts illicitly, for example using alternative identification details. Please remember self-exclusion is a voluntary choice which requires your full cooperation.

Your account will only be re-opened if you contact us requesting to resume gambling after the self-exclusion period has expired. Any requests to resume gambling will be subject to a 24 hour "cooling off" period before gambling may resume. Alternatively, you may request an extension of the self-exclusion at this stage which will be applied immediately.

May we take this opportunity to encourage you to self-exclude from any other betting accounts that you hold. Customers experiencing gambling problems should seek help. For further details please contact our support and refer to the Terms and Conditions and Responsible Gambling pages.

6.3 Reopening a Self-Excluded Account

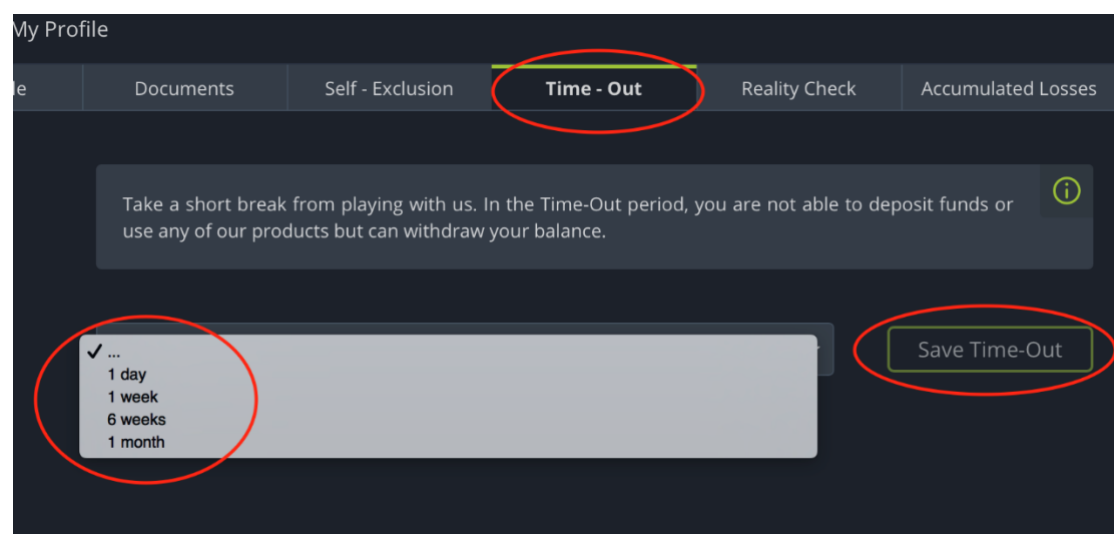

When a customer self-excludes for a period (6 months to 5 years), under no circumstances can the customer re-open their account until such period as chosen by the customer has expired. Upon expiry of the self-exclusion period, should the customer wish to re-activate their account they are required to take positive action to begin gambling again by calling customer support. No e-mails should be sent to the customer to advise them of the expiry of their self-exclusion and positive action should be undertaken on the customer's own accord.

Upon a customer requesting their account be re-opened BetBoro will first contact the customer by telephone and request that the customer verify their identity by answering a random combination of; security questions, date of birth, telephone number and first line of address clarification. The customer will also be advised to provide their request in writing which can in the form of an email from the customer registered email address. BetBoro will then decide as to whether the account will be re-activated. Upon advising the customer that the account can be reactivated, so that they can begin gambling again, a further cooling off period of 24 hours will be initiated prior to reactivation. No marketing material should be sent to the customer unless the customer has reconfirmed their agreement to receiving such material.

7 Time-Out

For customers who wish to take a short break from gambling BetBoro offers a time-out facility. Customers can set a time-out on their account through the 'My Account' function or via live chat or e-mail for a period of:

- 24 hours.
- One week.
- One month.
- Two months.

During this time-out the customer will have their account closed and all marketing material stopped.

Customers can find details of the time-out facility through the Responsible Gambling page at the footer of the website(s). The Responsible Gambling page states as follows:

A little break can do you a world of good. If you need a little break from playing on our website, you can do so using the time out option. You can set up a time out of 24 hours, a week, a month or even two months. Once you have selected a period, you will not be able to make further deposits or enjoy any services on our site. Although you have restrictions, you are still able to request a withdrawal if there are any deposits in your account.

8 Deposit Limits

For customers who wish to control the amount of money they are gambling BetBoro offers the opportunity to set a deposit limit. Deposit limits are offered as part of the first registration process and within the customer's 'My Account' function. Customers can also set a deposit limit by contacting customer support via live chat or e-mail.

A screenshot of a dark-themed user interface showing three stacked rectangular boxes. Each box contains a label and a numerical value:

- Top box: "Max Daily Deposit*" followed by "500".
- Middle box: "Max Weekly Deposit*" followed by "700".
- Bottom box: "Max Monthly Deposit*" followed by "1000".

Customers can find details of the deposit limit facility through the Responsible Gambling page at the footer of the website(s). The Responsible Gambling page states as follows:

You can use deposit limits to limit the number of deposits made to your account. The amount can be set for a daily, weekly or monthly period. This allows you to keep track of the amount of deposit to your account before betting takes place.

The limits cannot be lifted by us, but you can reduce the deposit limit at any time. Changes will be made seven days after your request. Before raising your deposit limit, consider carefully whether you can afford it. Never choose to increase your limit because you have lost money and believe you can recover the amount lost by playing. This option is available in your player account under deposit limits, and you can set up, change, and confirm them.

Customers can reduce their deposit limit via the 'My Account' function, which are undertaken immediately and by live chat or e-mail, which are undertaken within 24 hours.

Customers are also able to increase their deposit limit via the 'My Account' function, live chat and e-mail. Increases are subject to a 24-hour cooling off period.

10.5 Account Balance

An up-to-date account balance is always available to customers at the top of their screen to allow a customer to keep an eye on his or her spend.

10.6 Gameplay Indicating Possible Cause for Concern

BetBoro have created a range of triggers to identify gameplay that could be indicating possible cause for concern. These triggers are based on:

- 12 months rolling deposit (value).
- 30 day rolling deposits (value).
- 7 day rolling deposits (value).
- Daily deposits.
- 30 day rolling deposits (number of).
- 7 day rolling deposits (number of).
- Daily deposits (number of).
- Consecutive days gambling.
- Consecutive hours gambling (casino).
- Number of cancelled withdrawals (30 days rolling).
- Number of cancelled withdrawals (7 days rolling).

Following identification based on the above triggers, a full review of the account is conducted. When reviewing customer accounts, the following criteria is considered which may raise problem gambling concerns but is not limited to:

- Time and spend indicators: amount and frequency of time and deposits, time of day, large losses.
- Account indicators: cancelled withdrawals, failed deposits, multiple payment methods.
- Use of responsible gambling tools: changing deposit limits, trying to stop reversing withdrawals, previous self-exclusions or previous customer interactions.
- Customer contact: information or hints from customers, frequent complaints, requests for bonuses following losses, arguments over losses or belief that games are fixed, or signs of distress.
- Play indicators: chasing losses, erratic betting patterns and product choice.
- A 'big win': high staking following a win could hide or even lead to harmful behaviour.
- KYC: What KYC is held, does any give detail of the customer affordability?
- Previous referrals: Has the player been investigated or interacted with previously?

If problem gambling concerns are raised following a review of a customer account, then a customer interaction will be initiated, and the Customer Interaction Process followed (see Customer Interaction Policy and Daily Monitoring Procedure).

If management elect to contact the player, they may do so via email or telephone. They will ask the customer directly if they are happy with their levels of gambling and whether they have read our responsible gambling page and are aware of the facts surrounding gambling.

If a manager cannot reach a player or does not receive a satisfactory response the account will be suspended until the player gets in touch and confirmed they are in control of their gambling.

10.7 Preventing Underage Gambling

BetBoro do not allow anyone under 18 years of age to play on their website(s). For further details please refer to BetBoro's Age Verification Policy. Age verification occurs prior to allowing a customer to deposit, bet (with real money or free bets) or play any free-to-play games. In the unlikely event that an underage player does manage to play, all deposits will be returned to the customer regardless of win or loss. The account will be closed immediately.

10.8 Preventing Customers from Opening Duplicate Accounts

A report is produced daily of all new registrations to identify potential duplicate accounts. A search is conducted to identify accounts with matching first name, surname and DOB. The account is investigated and if the duplicate is confirmed, then the account is blocked, and action taken accordingly. The usual course of action is to void all open bets and refund all stakes to the original payment method. All actions are recorded within the customer notes, along with ticket numbers.

All duplicate accounts will be identified and blocked within 24 hours.

A further check is carried out for all self-excluded accounts to ensure duplicate accounts are not created.

10.9 Language

All problem gambling material and content is available in English language only.

Procedures remain the same irrespective of language.

10.10 Advertisement activities

The Company shall engage in responsible advertising. According to the LOK, The Company must ensure that its marketing and advertising activities, including the offering of bonuses:

- do not encourage excessive gaming.
