We confirm that ORIGIN CREATIVES Limited (*the Lender*) and Felicas B.V. (*the Company*) are independent legal entities which cooperate on a commercial basis as strategic business partners.

The Lender is a company active in the field of digital and affiliate marketing, primarily for e-commerce businesses and, increasingly, within the iGaming sector. As part of its ordinary course of business and broader commercial strategy, the Lender is expanding its activities in the iGaming market and is therefore investing in projects and operators in the industry.

In this context, the Lender provides loan financing to the Company pursuant to a written loan agreement, on commercial terms, for the purpose of supporting and scaling the Company's licensed B2C iGaming operations in Curaçao. The rationale for the loan is twofold: (i) to enable the Company to develop and grow its iGaming business, including user acquisition and marketing, and (ii) to allow the Lender to expand its own business footprint in the iGaming space by supporting strategic partners whose operations are complementary to its existing digital and affiliate marketing activities.

The parties cooperate as business partners, and their relationship is based on straightforward commercial collaboration. The loan simply reflects the Lender's support for the Company's growth, and the arrangements between them remain consistent with what is typical for independent partners working together on mutual commercial objectives.
