The Curacao company will be funded by the parent Anya Holdings OÜ.

The share capital contributed by Yannick AS is already registered with the Estonian business registry, while the contributions from other staff is expected to be registered with the Estonian business registry early Q3-23.

The financial statements of Yannick AS are submitted as annexes. The origin of funds for Yannick AS is mainly the sale of Vincent Group plc to GAN Limited in 2021 ([link](#) to agreement) and the sale of Nordic Gaming Group to Betsson Group in 2012 ([link](#) to press release).

Anya Holdings also contemplates an additional equity raise during Q3-23, from external investors, predominantly in the Baltics and Nordic region, of which none is expected to have a qualifying holding (>10%).
