Gambling can be exciting, interesting and good fun. Sports betting, online casino, games and poker are played by millions of people worldwide who love entertainment. Unfortunately, this activity like many others can create addiction, and that's why we are committed to the promotion of responsible gambling and we take all the necessary measures to prevent any form of abuse and to create a responsible and healthy gambling environment. The Company acknowledges that for some people, gambling can have a negative impact on their life and therefore the Company has developed this Responsible Gaming Procedure (hereafter: the '**Policy**') which outlines certain practices adopted by us when providing services to our customers.

Responsible gambling involves the conduct of gambling in a manner where the potential for harm associated with gambling is reduced.

The Company has appointed a designated Responsible Gaming person, who is responsible for implementing and enforcing the Policy. Furthermore, this designated person shall be the point of reference regarding this Policy and its related requirements. As part of the Company's problem gambling initiative all related staff receive responsible gambling training as part of the induction process and annually thereafter.

The Company's aim is to ensure that customers make informed decisions about gambling and that if the customer requires assistance, to facilitate access to gambling help services.

RG Policy

The Responsible Gaming Policy for Licensed Operators as issued on April 17, 2025 by the Curacao Gaming Authority (hereafter: 'RG Policy CGA') sets out various obligations which must be adhered to. As part of the RG Policy CGA, the Company will prominently display:

- The license details through the dynamic seal on the page(s);
- A sign which indicates that under-age gaming is prohibited;
- A 'responsible gaming' message, explaining that gaming can be harmful if it is not controlled, and information about the player support measures;
- A direct link leading to the responsible gaming section which includes all relevant responsible gaming information required by the CGA;
- A direct link which enables players to refer to one or more gambling support organizations;

The Company prioritize the protection of our Customers through the following measures:

- Age Verification: Customers must be at least 18 years old to participate in any gaming activities. Age identification is done during the account registration process.
- Self-Assessment Tools: We provide self-assessment tools to help Customers evaluate their gaming behaviour and identify potential risks. These tools are accessible via our website;
- Behaviour Tracking: We monitor Customer behaviour to detect signs of problem gambling and intervene when necessary. This includes tracking deposit patterns, frequency of play, and time spent on gaming activities;
- Deposit Limits: Customers can set deposit limits to manage their spending;
- Cool-off periods and Self-exclusion: Customers can opt for temporary cool-off periods or self-exclusion to take a break from gaming. Self-exclusion can be set for periods ranging from 1 year to lifetime.

Underage gambling

Participation in gambling activities is strictly limited to individuals who are 18 years of age or older. Underage gambling is strictly prohibited and will not be tolerated under any circumstances.

We are committed to promoting a safe, responsible, and legally compliant gaming environment. As part of this commitment, we take the issue of underage access extremely seriously and are dedicated to preventing minors from participating in any gambling-related activities on our platform.

By accessing and using our services, users expressly acknowledge and confirm that they are at least 18 years of age. Any attempt to misrepresent age or provide false information during the registration process constitutes a breach of our terms and conditions.

If we become aware that an account has been opened or accessed by a minor, we reserve the right to take immediate action. This includes the immediate closure of the account, the forfeiture of any winnings, and other actions subject to applicable legal requirements. We will clearly communicate the reason for the account closure to the minor.

To support our efforts in preventing underage gambling and ensuring compliance with relevant regulations, all users may be required to submit valid proof of age. Verification includes a valid government-issued photo ID, such as a passport, national ID card, or driver's license - once thresholds set out in our Anti Money Laundry Policy are reached. Records of all age verification processes and their outcomes are maintained, in accordance with relevant regulations.

We are continuously working toward implementing additional measures to detect and prevent underage access and ensure that our platform remains a safe environment for all eligible users.

Behavior tracking

The Company monitors customer activity to identify potential gambling problems, and applies appropriate intervention measures for high-risk players, with the aim of mitigating potential negative impact.

By conducting a holistic assessment of the player's interaction with the Company, at-risk individuals can be identified, enabling the Company to take proactive measures to prevent gambling-related harm.

Behavior tracking is be done, amongst other elements, on the following factors:

- Deposit and wagering frequency;
- Repeated failed transactions due to insufficient funds;
- Reversing withdrawals;
- Inexplicable extended play sessions;
- Frequent changing to Responsible Gaming tools;
- Unreasonable increased communication with customer support;
- Use of available credit to maximum limits (e.g., credit card limits);
- Attempts to open multiple accounts to bypass deposits or loss limits.

While key monitoring factors are outlined above, no single factor shall, on its own, be considered sufficient to identify a problem. Risk is assessed based on a combination of factors observed over time.

Behavior monitoring is primarily carried out by frontline staff, such as customer service representatives and VIP managers, who are best positioned to identify potential risk through direct interaction and behavioral patterns.

The Company maintains a structured and documented process for identifying and responding to indicators of problematic gambling. Where indicators of risk are identified, the player account is flagged within the Company's systems, triggering a more detailed behavioral review. This process includes the following elements:

1) Player Profiling and Risk Assessment

The Company establishes and maintains player profiles using relevant data to assess individual risk levels. A risk-based approach is applied to determine the appropriate level of monitoring and intervention. All Responsible Gaming interactions, whether initiated by the player or the Company, are recorded in the Player Account Management (PAM) system, including identified risk indicators and any actions taken.

2)Responsible Gaming Interventions

A player who is identified as exhibiting at-risk behavior, is informed of available Responsible Gaming tools, including deposit limits, cooling-off periods, and self-exclusion options.

Where appropriate, following escalation measures are applied:

- Applying mandatory deposit limits to the player's account;
- Temporarily suspending the account pending further assessment;
- Permanently excluding the player in cases of severe or persistent risk.

Self-assessment

We encourage all players to regularly reflect on their gambling habits to ensure that their gaming remains safe and within healthy limits. To support this, we provide access to self-assessment tools designed to help users identify potential signs of problem gambling and make informed decisions about their activity.

One widely recognized self-assessment is the 20-question quiz provided by Gamblers Anonymous, available at: <https://gamblersanonymous.org/20-questions/>.

This questionnaire can help players recognize behaviors that may indicate a gambling problem.

In addition, players may consider using scientifically recognized screening tools, such as the CAGE Questionnaire (Adapted for Gambling). This simple four-question tool can provide valuable insight:

1. C – Cut Down: Have you ever felt you should cut down on your gambling?
2. A – Annoyed: Have others annoyed you by criticizing your gambling?
3. G – Guilty: Have you ever felt guilty about your gambling?
4. E – Eye-Opener: Have you ever gambled first thing in the morning to feel better or recover from losses?

Interpreting the Results

- 0 “Yes” Answers: Low risk of gambling-related harm
- 1 “Yes” Answer: Moderate risk; further reflection is advised
- 2 or More “Yes” Answers: High risk; professional support and responsible gambling tools are strongly recommended

If any signs of problematic behavior are identified through these assessments, players are strongly encouraged to explore the responsible gambling tools available on our platform or seek support from professional organizations.

Players can access a detailed record of their betting and wagering activity from their account, including timestamps of transactions, covering at least the previous six months. If a player requires records for a

longer period, they may request these from us, and we will provide them within 10 working days, unless exceptional circumstances require additional time. In such cases, the player will be informed accordingly.

Monitoring and Intervention

We actively monitor and analyze player behavior using multiple indicators, such as deposit and wagering frequency, reversed withdrawals, and unusually long play sessions. If a player shows signs of signs of gambling addiction, we may offer self-limitation tools or, in more severe cases, restrict access and close the account. This approach supports early identification of risky behavior and helps reduce potential harm.

Available restrictive measures

If you feel that online casino games will or already have become a problem for you, we strongly suggest that you use the following mechanisms that are available and can be accessed by contacting our customer support via chat or via email:

- self-exclusion;
- cool down period;
- financial limits.

Self-Exclusion

If you wish to be self-excluded from our website, please have a look at our Self-exclusion policy.

Time out/ Cool Down Period

If you need a temporary break from gambling on the website, you can ask us for a cool down period. Once a cool down period is activated, the player's gameplay will be temporarily locked. You can set a time-out on the account via live chat or e-mail for different timeframes.

When activating a cooling-off period, you will be asked to choose your preferences in the following areas:

1) Duration: How long you would like the restriction to last. You can choose one of the following timeframes:

- 24 hours
- 7 days
- 1 month
- 3 months

All gambling activity on the brand where you activated the restriction will be paused for the selected period.

2) Marketing Opt-Out: Whether you want to stop receiving promotional communications during this period. In that case, all marketing material will be stopped and no bonuses, free play, or incentives will be offered to you.

Once you choose to activate a cooling-off period, we will respect your decision without any further questions, will not offer any incentives, and will ensure the process is completed promptly and without

delays, and your restrictions will take effect immediately and be enforced in line with your selected preferences.

For cooling-off periods of one or three months, we may ask you to confirm your choice through a simple online verification step (for example: “You wish to cool off for one month. Please confirm”).

Please note that during a cooling-off period, your player account remains active, and player funds remain accessible for withdrawal, but with gambling features disabled.

After the selected cool down period has ended, you will automatically regain full access to your account and may resume gaming as usual.

Deposit Limits

In line with the RG Policy CGA, the Company offers the possibility to set limits for daily, weekly, or monthly periods. This allows the Customer to define restrictions in accordance with individual gaming behavior.

Customers can set limits on the total amount they deposit over a defined period (daily, weekly, or monthly). Once a deposit limit is reached, the customers will not be able to deposit additional funds until the specified period resets.

If the option to change limits exists while a limit is already in place, any request to increase the severity of a deposit limit takes effect immediately. Requests to decrease the severity of a limit are subject to a 24-hour waiting period before implementation.

Any resolved or unresolved wagers made prior to the deposit limit being set in place remains unaffected regardless of the limits set.

Exceptions to Limits and Exclusions

In certain situations, the application of limits or exclusions may affect active wagering. This includes, but is not limited to, situations where:

- A time limit set when a player is active in a poker tournament;
- A limit or exclusion when a player has an unresolved ante-post bet on a future event.

In such situations, the restrictions as outlined above will be honoured immediately with the exception of the active gameplay or wager(s). The restrictions apply upon completion of the active gameplay, relevant tournaments, wagers or events. Prior to the event’s completion, no further wagering is permitted (for example: a player cannot enter another tournament or engage in other gameplay while the current tournament remains in progress, or a player may not place any wagering while an ante-post bet remains unresolved).

Duplicate Accounts

The company will take measures in order to prevent players from opening duplicate accounts on the Website, which measures will be further detailed in version 1.3 in accordance to the implementation schedule of the Responsible Gaming policy CGA.

Training

Mechanisms are established to ensure that appropriate and ongoing responsible gambling training is provided to all staff. All related staff, including customer service, VIP, marketing, and Responsible gaming staff, are provided with induction training on responsible gambling, and annually thereafter.

Company's staff is trained to handle player interactions professionally. Customer service, VIP, Responsible gaming staff, are provided with induction training on responsible gambling, and trained to timely recognize signs of gambling distress such as aggression, financial desperation, agitation. These staff members are also trained to conduct structured conversations with at-risk players, and to direct players to appropriate support resources and Responsible Gaming tools. Marketing staff are trained to ensure that all communications and promotions are conducted in a responsible manner and do not target or encourage at-risk players.

To ensure best practice, ad-hoc training may also be provided to employees to discuss findings following evaluations.

Parental Controls

There are a number of third-party applications available that parents or guardians can use to monitor or restrict the use of their computer's access to the Internet. These include:

Net Nanny (www.netnanny.com) is a filtering software that protects children from inappropriate content on the Internet.

Make sure no minors have access to your player account. For most computers, it is possible to have a password control so they cannot be accessed without user verification. It is also possible to use specific protection software that allows you to prevent minors in your household to access gambling websites.

Internet Filtering Tools

We recommend considering third-party software that can help limit access to gambling websites. There are several tools available globally, some of which are free and others are paid, that can assist with website and gambling site blocking.

Examples of such tools include:

BetBlocker – betblocker.org

GamBlock – gamblock.com

Gamban – gamban.com

These tools can be useful for managing and restricting access to gambling sites, helping to promote a safer online environment.

Information Visibility

The Company ensures that players can easily access responsible gaming information by:

- **Visible Links:** Our homepage displays a link to the responsible gaming policy, tools, and contacts. These links are also included in the footer of the homepage on our website
